

## HOME OF THE FAST TRACK PROGRAM!

Innovations Charter School's of West Orlando's VISION is to create a small school learning community with focused and differentiated instruction. In this environment, all students are valued and accepted for who they are and encouraged to strive toward academic excellence with individual progressive student learning plans. The FOCUS of Innovations Charter School of West Orlando is on the individual student's needs. Success for the student must include academics, social and life skills, coping and interpersonal skills, organization, communication, and study skills. The students are provided with an engaging and challenging curriculum to promote academic performance, increase self-esteem, and build social and civic responsibility. This is all done in an atmosphere that promotes a common sense approach to education by offering individualized, tailored, and personalized STUDENT LEARNING PLANS.

### FLEXIBLE SCHEDULE TO FIT YOUR NEEDS!

If your child is behind their original graduation class or has been retained and would like the opportunity to 'earn their way' back to their CORRECT GRADE LEVEL, then Fast Track is the answer. The Fast Track Program Model is for those students who wish to earn their way into their right grade, accelerate with independent learning, AP classes, or Florida Virtual School. The Fast Track Program has certified instructors and lab facilitators who assist each student with their self-paced coursework. This lab has tutors and small group instruction for students to learn the concepts and complete the online coursework. The tutors are especially important for reading and math courses.

### SPECIALIZED CURRICULUM

We use comprehensive curriculum based on the common core standards by offering not only direct in-class instruction but also Hybrid Curriculum Model lab instruction and practice online web portals for student success. We have in house tutors in Math and Reading.
