ranger 4

Measure your DevOps progress for £399pp*.

Accurately plot your team's progress by using our specially designed program of online assessments, microlearning and reassessment tools.

*Discounts for volume available. We chose a small font because we think it's an obvious point and didn't want to spoil the pdf. We thought you might like to know!
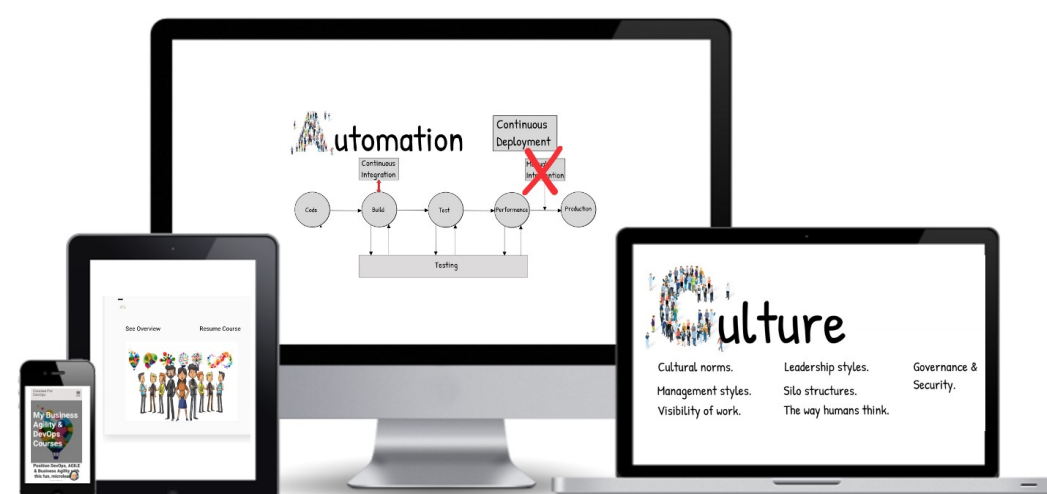

Where to start

Many of our customers started right here. Regardless of where you are in terms of Business Agility, AGILE and DevOps, you will at some point want to know "is it working?"

Ranger4 can help. We measure and manage your progress with objective data as to how well your team's are adopting new Ways of Working.

Straight forward, cost-effective and anonymous DevOps assessments will clearly identify what your people know.

Online, fun micro-learning will educate small and large communities alike about Business Agility, AGILE and DevOps.

Reassessments will enable powerful comparisons in knowledge and engagement with detailed management reporting to support your business goals.

The Program

Step One

Invite an unlimited number of people to take the Ranger4 DevOps Anchor Assessment.

Step Two

Review the management report online with experts in Culture, Automation, LEAN, Measurement, Sharing, Shifting Left, AGILE and Business Agility and agree on next steps.

Step Three

Provide online, microlearning DevOps subscriptions.

Step Four

Re-assessment to measure the impact to your business.

Testimonial

"Having utilised Ranger 4 for our DevOps training needs over a number of years, I have found them to be professional and innovative. They are cutting edge and knowledgeable about their subject and their trainers provide quality, thought-provoking training material. They have really assisted in bringing DevOps culture alive and I look forward to utilising their many different training offerings in the future."
