Junior to Mid Level Software Developer Java/SQL with Active Security Clearance (Secret or Top Secret)

Job Summary:

The Software Developer will be a member of the product development team at Compass Global Business Services, LLC. They will participate in all phases of the Software Development Lifecycle, including requirements analysis, design, implementation and testing. This developer will be expected to take ownership of significant portions of our product from a technical perspective and guide junior developers in implementing new features and enhancements.

We are looking for a Software Developer with active government security clearances to build solutions for our clients and make an impact.

Job is Remote.

Required Qualifications and Essential Functions:

Must be a US citizen.

Must hold an active security clearance (Secret or Top Secret).

Active CAC or at the very least a recent background check completion.

BS in Engineering, Computer Science, or Supply Chain or equivalent experience.

Two to five years development experience to include Java, J2EE, Java Script, HTML, CSS, SVN, Eclipse, and PL/SQL

- Design, develop, refactor, test and maintain new features and improve existing code base using Java/J2EE, JavaScript, SQL, HTML, CSS, Ext JS, JUnit, Java GUI Libraries (SWT, AWT) and Eclipse.
- Work with UI technologies.
- Implement J2EE concepts (RESTful Web services and MVC pattern) using ONE Platform SDK. Develop complex SQL queries and stored procedures using Oracle SQL Developer.
- Debug JIRA issues, update and manage requirement documents using SVN version control tool.
- Work with integration frameworks including EDI, JSON, XML, REST, SOAP etc.
- Merge code between different branches and manage revisions using Perforce(P4V).
- Participate in client meetings, design sessions, deployments, production support activities and on-call activities.

Programmer exam (L1/L2) will be given by One Network before moving forward to interviews.

Salary; A reasonable estimate of current range is: \$55,000-75,000 (Depending on Experience); the salary range for this role takes into account the wide range of factors that are considered in making compensation decisions including but not limited to skill sets; experience and training; certifications; and other business and organizational needs
