" BUILDING OUR FUTURE "

As everyone can see below, the plans for the addition has been agreed upon between the Architect, Contractor and the building Committee. The next step is for the Architect and Contractor to put all the plans together which must meet the building codes for the county. Once they are completed, the plans will be submitted to the County Building Inspector for his final approval. This is not an overnight process and one that has to be done correctly in order for this project to get started. If everything goes to plan, the Contractor may get started by late July. Again, this all depends on the building inspector. We will do our very best to keep everyone informed on the progress as we receive new information.
