

Final Circuit Standings for 2002 2001

The following are the final statistics for the 2001 PSRR circuit. I may have made some mistakes and a few of the races gave us poor results so please call me immediately if you think your results are wrong so I can change them and order awards. You needed at least 8 races to qualify except in the 65+ and under 19 age groups which 5 were needed. only the best races were counted of the 8(5) even if you ran more. I've included some of the races worked too but if you were short and worked and I forget to count you call me. I didn't count the races worked if you didn't need them but we appreciated your help! JEFF (815)722-1029 or e-mail me at jolietjeff@aol.com.

These results are for all races through the National Heritage corridor 25K except the Glad run. I have not added in races worked yet either remember you get credit for the sundowner and turkey predictor and 2 races for the nhc25k . You need 8 races to get an award (5 for 65+ or 0-19) If you believe I have made a mistake (I try not too but do)please email me at Jolietjeff@aol.com with all the races you ran this year and I will try to correct my errors.
