#### **Starting Lines**

Running gives me a clearer perspective on the world, and it makes me feel special. I've never been a traditional tourist. I've always seen the world by running, and that has allowed me to view things in a different way. Places look different in the early-morning hours, when the streets are deserted.

— Grete Waitz —

AZ QUOTES

Running has taught me, perhaps more than anything else, that there's no reason to fear starting lines... or other new beginnings.

— Amby Burfoot —

#### **Prez Says**

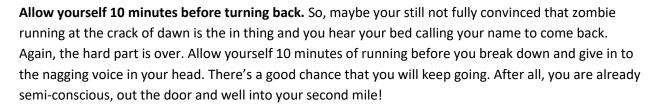

By Cathy McQuarters President

Summer is in full swing and the heat is on! You might be the type of runner who needs to rise and shine early to beat the heat. If you aren't always in the habit of running early in the morning, then I have a few ideas to help ease you into making your morning run a habit.

**Get your gear ready the night before.** It's a good idea to prepare your clothes and shoes the night before. You will save yourself a lot of time by having it ready. Check the weather forecast for the morning and select what you prefer to wear. You will thank yourself when you roll out of bed the next morning.

**Wake up, dress and leave.** There is no doubt about it, the struggle is real when the alarm rings and you are sunk deep under the covers lost in

**Reward yourself.** It will help motivate your run to the finish if you have something to look forward to. When you return home, reward yourself with a hot cup of coffee, a bagel, bowl of cereal or whatever is your favorite breakfast item. It will give you the lift you need to power through to the finish. If that doesn't entice you, then you might treat yourself to new run gear. Personalize it and make it about you. Don't forget that you are the one getting out there, doing all the hard work, and getting it done. You deserve to be rewarded!

**Arrange to run with friends.** Plan to meet with friends in the morning. They will help keep you accountable and on track. Additionally, it is far better to run with friends at the crack of dawn. They share the same craziness that you do!

Whichever way you choose to do morning runs, I wish you nothing but the best. It's not an easy task to repeat every morning. Do whatever it takes to keep you motivated to put one foot in front of the other each and every morning!

#### **Prairie State Road Runners - Remembering Our Roots**

Special thanks to Dave Cyplick and Eileen Skisak for recommending this new feature to our PSRR Newsletter! PSRR historical items dating back to 1982!

#### August 1982 Announcement of (PSRR) Beginnings!

Announcement of the club splitting off from the Joliet YMCA. Below is an excerpt from that announcement. As we know, the name, "Prairie State Road Runners" was the fill-in voted on in the blanked, \_\_\_\_\_\_ line!

HELLO AND GOODBYE August 1982

A new period is beginning for our club. As most of you know, we decided unanimously (47-0) at last month's meeting to end our relationship with the Y and continue on our own. While our relationship with the Y was fine for previous years, our recent rapid growth and plans for the future require more freedom than what was offered (particularly in view of the Y's recent new policies regarding their sponsored groups, which include us. It was felt that we could not continue under our existing dues structure if we accepted the Y's new policies, along with other limitations).

We look forward to a very progressive future. We belong to the Road Runner's Club of America (and have complete liability insurance coverage through them), and have a beautiful new place to call home. For those that missed last months meeting, our new meeting place is the New Lenox Lions Community Center in New Lenox, behind Economy Shopping Center — take Vine Street just east of the shopping center, go south one block, and then west one block on Manor Court (immediately across from the new Post Office). To begin our relationship, a donation of \$100 was made to the Park District. We think both of us will benefit greatly.

#### Food 4 Thought:

Last months (March-April 2019) PSRR Newsletter, included a thought-provoking article by Glenn Gabryel about how so many runners clubs have gone by the wayside. Glenn wrote, in part;

"That is something to consider in the context of the PSRR's. While we do have magnificent people who generously donate time and effort to governing, maintaining the circuit and associated activities, that vitality does not come free and is not limitless. It's often the case that the same core of people do most of the heavy lifting. So volunteer when you can and at least express appreciation to the officers, race directors and support people out on the courses. Lastly, don't discount that "decline in active membership" bit that contributed to the Windrunners disappearing ... something to consider when PSRR annual membership renewal comes up."

#### PSRR Hall of Flamers (featuring John Davis and Steve Koven)

By: Tom Lambert

NOTE: Please be advised: This article is loaded with grammatical errors and fragmented sentences!

This issue of the PSRR's Newsletter is woven with a common thread: **Our Roots!** PSRR's has been, "Will County's Running Authority Since 1975." In my high school, sophomore year, our chemistry teacher always had these creative methods of encouraging possibility thinking. Going the *extra mile*, to use a running metaphor. (You may recall the last newsletter where I shared her, "IF-THEN" principle. BTW: I actually had a bit of a crush on her!)

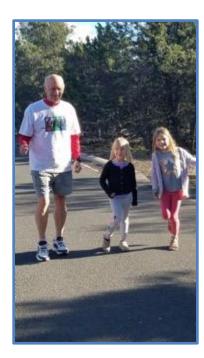

Sometime during the first semester, she wrote: "Why? Because!" on the blackboard. Yep, we actually had "blackboards" back then – while they were actually kind of green. The principle here was to, ask - why and then, find the - because.

So, <u>why</u> has the PSRR's Club survived over forty years? <u>Because</u> of the champions who kept the fire burning – kept the candle burning! Hall of Flamers, like John Davis!

John, always the encourager, had sent a picture of him and two of his adorable granddaughters running at the Grand Canyon. John included this quote: "The Days That Make Us Happy, Make Us Wise." (John Masefield ~English Poet 1878-1967)

In addition to being an outstanding runner (Marathon PR 2:38), John was the PSRR, Newsletter Editor for five years! John has coached cross country and track and refereed soccer as well for many years. Always involved in, "being there" for young athletes.

In Johns email he suggested, "by the way I am still hoping to get the club more involved in youth running--I think it might be a way to recruit more adult runners also--I do need to mention that one of my 7th grade boys ran 2:10 for 800 meters last week and was the State Champion."

What a great idea, John!

Steve Koven, another PSRR, Hall of Flamer and former president of the club, once shared his vision for the club: Steve feels that his greatest accomplishment as president was turning the club into a "big tent" where people who were new to running and weren't sure they belonged could join and feel like they belonged. Well said, Steve!

Running, jogging and walking is for all ages. No one needs to teach a young child to run – they just do it!

The singing group, Point Of Grace, had written a song, "Keep The Candle Burning" – below are a few excerpts of the lyrics.

"You think you're alone there in your silent storm
But I've seen the tears you've cried falling down and trying to drown
The flame of hope inside
Let me tell you now, tell you now
When you're walking in the dead of night
And your soul is churning
When your hope seems out of sight
Keep the candle burning
All it takes is one steady heart in a world that's turning
Shine a light and pierce the dark
Keep the candle burning
Keep the candle burning

The sport of running, especially training, can be somewhat of a solitude experience. The PSRR's has proven that it's the people – what we can do as a whole – that keeps the fire burning. It's not always about winning the running race. Rather, it's about winning the human race. Inclusion, love and acceptance.

Everyone and any one can be a Hall Of Flamer! We are so blessed to have these outstanding HERO's, like John and Steve, in our club – and so many more – too many to list here.

I'll end with this. The song, "Hero" (written and released by Mariah Carey on October 19, 1993) included these inspiring words:

"So when you feel like hope is gone Look inside you and be strong And you'll finally see the truth That a hero lies in you."

#### Lean On Me (Be Inspired!)

Back Story: "Lean On Me" is a song written and recorded by American singer-songwriter Bill Withers. It was released in April 1972. Bill Withers' childhood in the coal mining town of Slab Fork, West Virginia, was the inspiration for "Lean on Me", which he wrote after he had moved to Los Angeles and found himself missing the strong community ethic of his hometown. He lived in a decrepit house in the poor section of town.

(Excerpt from the song)

"Sometimes in our lives we all have pain
We all have sorrow
But if we are wise
We know that there's always tomorrow
Lean on me, when you're not strong
And I'll be your friend
I'll help you carry on
For it won't be long
'Til I'm gonna need
Somebody to lean on."

Shalane Flanagan, four-time Olympian, left, watches as Chandler Self is helped by relay runner Ariana Luterman at the finish line during the BMW Dallas Marathon in downtown Dallas. (Nathan Hunsinger/The Dallas Morning News)

By Cindy Boren (December 10, 2017)

It took everything Chandler Self had — and then some — to win the Dallas Marathon on Sunday.

Self began collapsing over the final half-mile and it took a warm gesture of sportsmanship from a fellow runner for her to cross the finish line.

Ariana Luterman, a high school runner at GreenHill Academy, helped Self to her feet several times over the final 200 yards. As the two approached the finish line, Self fell again and lunged to fall across it. Marathon personnel immediately came to help her and take her away in a wheelchair.

Luterman, according to one report, was running a relay when she saw Self in distress and decided to step up to help.

"The only thing I could think of to do was to pick her up, so I picked her up and I think she was a little confused at first," Luterman said. "No way was I going to start sprinting and just leave her there. ... You saw, those last 20 meters, she was just down and I was so worried she wasn't going to make it. So I picked her up with all my might. Right when we got to the finish line, I just kind of pushed her in front of me so she would be the one to cross that line."

Self, who is from Texas but now lives in New York, was the first women's finisher in an unofficial time of 2:53:58, ahead of Caitlin Keen, a former SMU runner and volunteer assistant cross-country coach at TCU, in 2:56.38.

#### **Finishing Lines**

"Jogging is very beneficial. It's good for your legs and your feet. It's also very good for the ground. It makes it feel needed."

~ Charles M. Schulz (1922-2000)

#### A Parting Thought:

#### **CHAPTER 27: "STAYING THE COURSE"**

Once upon a time, when long distance running, (like the 26.2-mile marathon) was exciting and fun, I was talking to a running colleague who gave me some insightful, truthful advice. He suggested that someday the fire may go out and that my body may break down. He further advised to be prepared for acceptance to slower runs and shorter distance days.

That day has come for me. Actually, that day came a few years ago but denial had played some tricks on me.

It was time to enter a new chapter in the running life.

I started running in high school as a means of conditioning for wrestling and really didn't like it at all.

Low and behold (a phrase my Grandma Hazel used to say – I never really understood its meaning) later in life I began running as a means of dealing with the stress of some troubles in life. Got hooked on the fun of running and fellowship in joining the PSRR's club.

I pray we all, <u>stay the course</u>, when a time comes when we may slow down or break down a bit, to remain in the club. It's a way of paying forward and being there to keep this vital organization available to the greater Will County community.

When you've reached mile marker "26.2" in your course of life – continue on....Chapter 27 is just around the bend! The race continues.

I, for one, hope to be there "cheering:" you on!
