EVACUATION

HIGH VOLUME EVACUATION TIPS

- Designed to fit all high-volume evacuation systems
- Vented on one side / non-vented on the other
- Non-sterile

Item	Description	Packaging
BSI-9901	Vented Evacuation Tips White Color	100 pc/bag- 10 box/cs
BSI-9902	Vented Evacuation Tips Rainbow Colors	100 pc/bag- 10 box/cs

EVACUATION

SALIVA EJECTORS

- Vented and smooth tip for maximum suction & patient comfort
- Soft, non-removable tip for patient safety
- Wire reinforced tube maintains desired shape
- Non sterile
- 10 Pcs/Bag - 10 Bag/Case

TIP	Blue	White	Pink	Assorted
BODY	Clear	White	Pink	Colors
	BSI-9001	BSI-9002	BSI-9007	BSI-9010

Ideal for pressure irrigation
Non-sterile

SURGICAL ASPIRATORS

- Designed to fit all high-volume evacuation systems
- 30° angle for maximum patient comfort
- Made of rigid opaque plastic
- Available in a variety of pastel colors
- Non-sterile

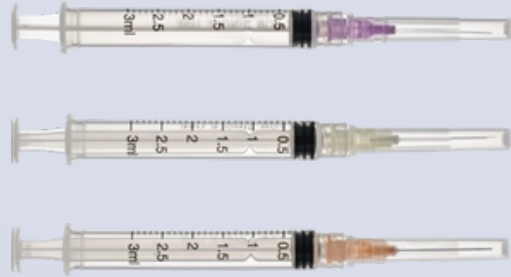

Item	Description	Packaging
BSI-1001	1/16" X 7-1/4" (Blue)	25 pc/bag- 100 box/cs
BSI-1002	1/8" x 6-1/4" (White)	25 pc/bag- 100 box/cs
BSI-1003	1/4" X 6-1/4" (Green)	25 pc/bag- 100 box/cs

SYRINGES

IRRIGATION SYRINGE + NEEDLE COMBO

- Luer lock design
- Non-sterile

Item	Description	Packaging
BSI-0325	3cc Syringe + 25g x25mm Endo Irrigation Needle	100 pc/box- 20 box/cs
BSI-0327	3cc Syringe + 27g x25mm Endo Irrigation Needle	100 pc/box- 20 box/cs
BSI-0330	3cc Syringe + 30g x25mm Endo Irrigation Needle	100 pc/box- 20 box/cs

PRE BENT NEEDLE FLOW DISPENSING TIPS

- Ideal for dispensing etchants, resins, and flowable composites.

Item	Description	Packaging
BSI-1018	Flow Tip 18g Pink	100 pc/bag - 600 bag/case

- Made of high quality Nickel Titanium, provides maximum security with its non-cutting “Radial Line” design and U-Shaped section.
- Universal asymmetric design provides safety, efficiency and flexibility.
- The non-cutting round ended safe tip offers soft canal shaping, especially in the apical third.
- Taper numbers are marked on shank for universal identification. Each marking line represents one 0.02 taper.
- Color coded with the international ISO equivalence

ENDODONTICS

CARBIDE BURS

Packaging: 100 pcs/pack

Item No.	Description
FG 2	Round Carbide Bur.
FG 245	Carbide Fissure Burs.
FG 330	Pear Shaped Amalgam Preparation Carbide Burs. .
FG 3S	Round Operative Carbide Bur Short Shank.
FG 4	Round Carbide Burs 19mm
FG 4S	Round Carbide Burs Short Shank .
FG 557-19	Straight fissure crosscut Carbide Burs 19M.
FG 557 SL	Straight Crosscut Fissure Carbide Bur (Surgical Length)
FG 6	Round Carbide Burs
FG 702L	Long Cross Cut Tapered Fissure Carbide Burs.
FG 702SL	Long Cross Cut Tapered Fissure Carbide Burs. (Surgical Length)
FG 7404	Egg shaped, 12 blade, trimming and finishing carbide Burs.
FG 7714	T-3 trimming and finishing burs.
FG 7803	12 Blade Bullet shaped trimming and finishing carbide burs.
FG 7901	Blade Needle Shaped Trimming and Finishing Burs.
FG 7902	Needle Shaped, 12 Blade, Trimming and Finishing Carbide Burs
FGSL 151	Surgical Tapered Round Carbide Burs.
FGSL 4	Round Carbide Bur. Surgical Length.
FGSL 4S	Round Carbide Bur. Surgical Length. Short Shank,
RA 2	Round Carbide Burs for slow speed latch
RA 2S	Round Carbide Burs for slow speed latch. Short Shank.
RA 3S	Round Carbide Burs for slow speed latch. Short Shank.
RA 4	Round Carbide Burs for slow speed latch.
RA 4S	Round Carbide Burs for slow speed latch. Short Shank.
RA 6	Round Carbide Burs for slow speed latch.
RA 6S	Round Carbide Burs for slow speed latch. Short Shank.
RA 8	Round Carbide Burs for slow speed latch.

ALLOYS

45% SILVER AMALGAM - 1 AND 2 SPILL

BRITEDENT 45 is a dispersed-phase, high-copper-content dental alloy with no zinc content. Dispersed-phase: A mixture of lathe-cut irregular particles and atomized spherical particles. High-copper-content: >12%. **BRITEDENT 45** is a single composition alloy with absolute homogeneity of its particles. Thanks to its optimal chemical composition (45%Ag, 31%Sn, and 24%Cu) and its high copper content, the gamma-2 phase is eliminated from the alloy microstructure. As a result of this, fragility and instability problems in corrosive environments decrease. Its morphology is composed of atomized and lathe-cut particles which results in a fast amalgamation with its optimal 50% mercury content (Mercury-to-alloy ratio: 1:1) and improves the alloy's physical and mechanical properties. This alloy has a high resistance to marginal fractures, excellent adaptation and marginal sealing, thanks to the homogeneity of its particles. Fine surface finish originated in the granulometry of its spherical and prismatic particles.

Item No.	Description	Qty
BSI4501C	Britedent 40% Amalgam High Copper CLICK CAPSULE - 1 Spill	500 caps
BSI4502A	Britedent 40% Amalgam High Copper AUTOMATIC CAPSULE - 2 Spill	500 caps

ALLOYS

40% SILVER AMALGAM - 1 SPILL

BRITEDENT 40 is a dental amalgam alloy mixed particle modified, high copper content and zinc free. These characteristics ensure its mechanical properties, eliminate the presence of gamma-2 phase of the amalgam, and prevent secondary or delayed expansion caused by the contact with humidity during the condensation step.

BSI4001A	Britedent 40% Amalgam High Copper AUTOMATIC CAPSULE - 1 Spill	500 caps

BOXES

DENTURE AND RETAINER BOXES

Introducing our dental storage solutions: Denture and Retainer Boxes. Keep your dental appliances safe and hygienic with our specialized containers. Designed for convenience and durability, these boxes offer secure storage and easy access. Simplify your dental care routine with our reliable and practical solutions

Item No.	Description	Qty
BSI-DLB	Blue Pro-Bath Denture Box	12 pc/bx
BSI-DLW	White Pro-Bath Denture Box	12 pc/bx
BSI-DASST	Assorted Colors (ladder Type) Denture Box	12 pc/bx
BSI-DSB1	Blue Denture Box with strainer basket	Individually packed
BSI-DSB2	Blue Denture Box with strainer basket	Individually packed
BSI-RHB	Blue Retainer box with holes	12 pc/bx
BSI-RHW	White Retainer box with holes	12 pc/bx
BSI-RASST	Assorted Retainer Box ventilated	12 pc/bx
