FAST ZACH

Distance-Specific Mobile Route Generation

SEE MORE IN YOUR MILES WITH FASTZACH.

Generating routes in seconds, FASTZach is a distance-based app that enables runners, walkers or hikers to explore their miles based on distance, landmarks and geographic features.

FASTZach's founder Amanda Brooks is a longtime athlete and supporter of motivating people to #GETOUTANDROUTE. Developed while marathon training and pregnant with her son Zach, FASTZach offers an adventurous, patented approach to distance-based routes.

FASTZach is available on iOS and Android, with the ability to create routes in over 50 countries, including the U.S., Canada and the United Kingdom.

Features

The app provides a personalized user experience.

- Route generation based on requested distance
- User-selected criteria, including landmarks and geographic features
- Start and end points based on user location
- GPS tracked
- Turn-by-turn voice navigation
- Rank routes to optimize future routes
- Re-route mid-run returning directly to the start point
- Ability to plan, share and save routes
- Social media integration
- Track time, mileage and splits
