

Product Data

Clean & shine 880 is a specially formulated high concentrated 2 in 1 cleaner and natural stone conditioner. Clean & Shine 880 has a build-in non aggressive cleaning agents blended with our unique shine preserver and enhancer. Regular usage is recommended to help condition floors and removal of surface efflorescence. Clean & Shine 880 cleans and does not create any film build up and helps pro-long the shine on the stone's surface. Clean & Shine 880 can be used on all types of smooth surfaces like polished and honed marble, granite, wood floors, vinyl tiles and ceramic tiles.

Method of Application

- Use directly from container or diluted as desire.
- Always test on a small area of the stone / tile away from the main area before actual application for surface sensitivity.
- Use application with a mop and spread over evenly and allowed to dry, no rinsing is necessary.
- Use with lesser dilution or pure for efflorescence affected surfaces. Dilution of 250ml of Clean & Shine 880 to 8 litres of water (regular mopping) Lesser dilution can be adjusted on actual situation, if floors are deemed to be dirtier.
- Shake well before use.
- For better maintenance on polished floor, an aid of a domestic floor machine is ideal.

Specifications

All natural stones, ceramic tiles, and grouts, must be thoroughly cleaned washed, dried and free from any loose particles prior to usage. All stones must be properly treated against moisture related problems with either Moistproof 1050, Proseal 1000 or Aquapro 1010, if unsure please contact any of Euroseal Product specialist for proper product recommendation. Use Clean & Shine 880 according to product's method of application and do not mix with any other non recommended products.

Caution!

There are many variables in stones & tiles and may react differently inclusive of different texture and finishes. Therefore a test application must be done on a sample piece before actual application. In case of unsure material or surfaces outside the norm, please check with a proper representative or email directly to www.eurosealsealers.com.

Keep out of reach of children. Do not reuse container. Discard container in proper manner. Protect eye and skin from direct contact and use in a well ventilated area. Cover all metal components before washing.
