

## Virtual Office Solutions (A-VOS)

Many home-based professionals and entrepreneurs want a non-home address that offers a sleek, professional feel when they need it. Arx Office Suites developed its virtual office solution (A-VOS) to cater to professionals who want convenience without the hassle and cost of a long-term lease.

Your A-VOS subscription provides a business address in a lower tax jurisdiction, a place to have your mail sent and company signage for any requirements your professional licensure may require. In addition, depending on your selection, you can take advantage of our professional meeting spaces when you need to meet a client or an Express office when you want to enhance your productivity.

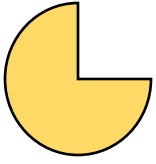

Outlined below are the three (3) A-VOS offerings. For less than the cost of your daily cup of coffee (depending on your barista of choice), you can enjoy the benefits of A-VOS. Contact us today to get started
