

FALL COLOR WITH TREES AND SHRUBS

Trees and shrubs can add fall color and interest in one of three ways, or a combination thereof. There is, of course, the main color coming from the changing leaf color. There can also be berries or fruit of differing colors. Or there can also be color from late bloomers, or plants that bloom from summer to frost.

TREES:

- Autumn Purple Ash-foliage turns maroon
- Autumn Blaze Maple-foliage turns orange/red
- Red Sunset Maple-foliage turns orange/red
- Green Mountain Sugar Maple
- Rocky Mountain Birch-foliage turns yellow
- Golden Rain Tree-seed pods turn coppery
- Hawthorns-good foliage color & red fruit
- Mountain Ash-orange/red fruit
- Newport Plum-foliage turns reddish
- Redbud-foliage turns yellow

SHRUBS:

- Mahonia (Oregon Holly Grape)-bronze foliage & blue berries
- Pyracantha-orange or red berries
- Barberry-foliage turns orangey/red & red berries
