

How to Calculate Match Play Handicaps:

To Calculate your course handicap refer to the Course Handicap Tables

Doran Trophy – 18 hole match play off white tees

Player A Handicap Index 26.2 vs Player B Handicap Index 16.3

Player A, $Hi\ 26.2 = Course\ Handicap = 24$

Player B, $Hi\ 16.3 = Course\ Handicap = 17$

$24 - 17 = 7$ So Player A has 1 shot on holes with Stroke Index 1-7, Player B plays off scratch.

Ron Tolhurst Trophy, 12 holes yellow tees.

Player A Handicap Index 26.2 vs Player B Handicap Index 16.3

Player A, $Hi\ 26.2 = Course\ Handicap = 23 \times \frac{2}{3} = 15.3 = 15$

Player B, $Hi\ 16.3 = Course\ Handicap = 17 \times \frac{2}{3} = 11.3 = 11$

$15 - 11 = 4$ so Player A has 1 shot on holes with Stroke index 1-4. Player B plays off Scratch
