**Here's the Scoop
on the String Bass**

The double bass, also called the string bass, upright bass, bass violin or contrabass, is the largest and lowest-pitched bowed string instrument in the modern symphony orchestra. The double bass is a standard member of the string section of the symphony orchestra and smaller string ensembles in Western classical music. In addition, it is used in other genres such as disco, jazz, 1950s-style blues and rock and roll, rockabilly/psychobilly, traditional country music, bluegrass, tango and many types of folk music. The double bass is typically constructed from several types of wood, including maple for the back, spruce for the top, and ebony for the fingerboard. It is uncertain whether the instrument is a descendant of the viola da gamba or of the violin, but it is traditionally aligned with the violin family. While the double bass is nearly identical in construction to other violin family instruments, it also embodies features found in the older viol family.

Like many other string instruments, the double bass is played either with a bow (arco) or by plucking the strings (pizzicato). In orchestral repertoire and tango music, both arco and pizzicato are employed. In jazz, pizzicato is the norm, except for some solos and also occasional written parts in modern jazz that call for bowing. In most other genres, such as blues and rockabilly, the bass is plucked.

For the first time in our 20-year history, tonight's program includes the wonderful sounds of a string bass! National Park Ranger and member of the ECCBC, Claudia Wood, adds the resonant sounds of "Sweet Thing" -- as she affectionally refers to her instrument.

Here's to your next twenty!

___ Woops! ___

My wife and I were browsing in a crafts store when I noticed a display of country-style musical instruments. After looking over the flutes, dulcimers and recorders, I picked up a shiny, one-stringed instrument I took to be a mouth harp. I put it to my lips and, much to the amusement of other shoppers, twanged a few notes on it.

After watching from a distance, my wife came up and whispered in my ear, "I hate to tell you this, honey, but you're trying to play a cheese slicer."

THE
Organization
Established in 1990

The Eunice Community Concert Band & Choir, Inc. was organized in February of 1990 with the intent to promote vocal and instrumental music in Eunice and the surrounding area. The organization is open to anyone who enjoys and appreciates vocal and instrumental music. There are no auditions or dues. We depend solely on the contributions of merchants and individuals and provide two concerts each year, July and December. The organization is operated by volunteers and pays no salaries.

In the last twenty years the band and choir has produced forty concerts. Also during our first twenty years, we have provided music for: Eunice July Fourth celebrations, LSUE commencement exercises, city inaugurations, Eunice Centennial Celebration (performing an original work by Dr. Quincy Hilliard, ASCAP, commissioned by the ECCBC for the celebration), LSUE community fun days, Eunice Christmas celebrations, and presented concerts in Crowley, Oakdale, Ville Platte, Lafayette and New Iberia. Several members of the community choir participated in a concert at Carnegie Hall in New York City in 1994. Joining singers from across the country, the group was

directed by Dr. James Haygood and world-renowned choral conductor John Rutter.

The ECCBC has enjoyed much success since 1990. Membership in the organization has grown to over 150. For any given concert there may be as few as forty or as many as eighty of those members performing on stage. For many, the rehearsal season provides a wholesome social activity and an opportunity to meet new friends.

The organization adds to the uniqueness of this city. *Very few* American cities the size of Eunice have a musical organization such as the ECCBC. We are proud of all that we have done and look forward to serving the Eunice area with quality, family programs for many years to come. ☼

OUR LOGO

In 1992, the ECCBC commissioned the University of Louisiana at Lafayette art department to create a logo for the organization. After a meeting with Dwight Jodon, Pat Dossman and the department, approximately fifteen art students set about the task of designing an appropriate ensignia.

Several of the proposed designs centered around the organization's acronym, ECCBC. However, the winning design was a simple graphic. It symbolizes the semicircle staging used by musical ensembles globally. The image is one *in motion* as the conductor's baton sweeps across the design. This particular logo was selected because of its simplicity and because the ECCBC is determined to move forward into the future with the mission of sharing the gift of music with the residents of Acadiana.

We will begin using the logo more frequently to identify the organization. We are proud to celebrate our twentieth birthday this year, and are excited about our future. It is our desire that this logo become...*a mark of excellence!*

Louisiana Academy
of Beauty thanks the
ECCBC for your
contribution to the
arts in Acadiana!

RANDOM Music Trivia

The British anthem was performed the most times in a single performance in 1909. While waiting for King Edward VII, who was getting dressed, a German band played the anthem 17 times.

The last note on a keyboard is C.

Music was sent down a telephone line for the first time in 1876, the year the phone was invented.

The CD was developed by Philips and Sony in 1980.

THE
Liberty Center

Construction of this vaudeville silent movie house began in 1920. Financial failure halted construction on the *Electric Theater* with the outside walls only partially completed. Purchased by Claude Keller and A.F. McGee Sr., the theater was completed and opened July 19, 1924 as the New Liberty Theatre.

This *Premier Temple of Amusement*, is listed on the National Register of Historic Places by the United States Department of the Interior and has been included in the National Trust Guide of Great American Movie Theaters Preservation Press Guide published by the Smithsonian.

Powerful storms create powerful people.

Cleco people get you the power you need when you need it – no matter what, no matter when. And what we do between storms is important, too. Our people are working to give you innovative ways to save energy and money. For more information, visit www.cleco.com.

CLECO

Our people. Your power.
