In addition, "Tow Away – No Parking" signs may be placed on the street 72 hours before work begins. Please have all vehicles removed from the street so they will not interfere with the planned work and to protect them from possible damage by construction debris. Some driveways may be temporarily out of service so please coordinate with the crew supervisor who will be wearing a white hard hat. Crew supervisor will also coordinate directly for any sidewalk removals fronting business storefronts and doorways.
