# Welcome to Paradise Valley and to the RISE20 Hospital IT Retreat. We are honored you have joined us.

"A rising tide lifts all ships" is an adage we take so seriously we named our company after it. We genuinely believe that healthcare can improve when we bring people together, open conversations and facilitate strong relationships. This leads to idea exchanges, breaks down communication barriers and creates cohesive and coordinated innovations. The rising tide, so to speak.

At RISE Health Group, we believe better healthcare depends on better relationships. We also felt a change in how people connect in the healthcare industry was overdue. Not just a new spin on an old thing, but something entirely new.

So, instead of spending countless hours in hotel rooms, on exhibit hall floors and late-night dinners attempting to swoon clients, we felt connections would be better if they were founded on understanding the hospital first. Not just where the department is or what the community is like, but the vision for the hospital's future and the means by which leaders are pursuing that vision.

We developed a concise agenda that includes provider-to-provider idea exchanges during our Executive Roundtables, supplier-to-provider presentations speaking to the needs of the hospitals during our Sponsor Case Studies and some great networking meals, afternoon networking breaks and more.

As for the rest of our history...it has yet to be written, but we welcome you to join us and write it together.

Please text us if you need anything during this week!
