UNLOCK ANIMAL PERFORMANCE AND ACCELERATE GENETIC PROGRESS WITH THE VYTELLE PLATFORM

Vytelle is a precision livestock company reshaping how cattle producers worldwide optimize their herds. Through Vytelle's integrated technology platform, generations of genetic gains can be made in just a few years. This allows producers to sustainably deliver more protein with fewer inputs, helping to ensure meat and milk are viable, competitive food choices for future generations.

1

Vytelle SENSE

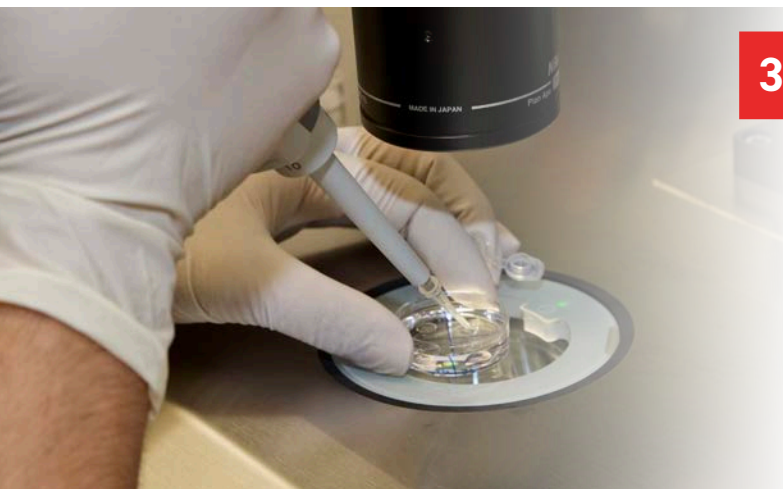

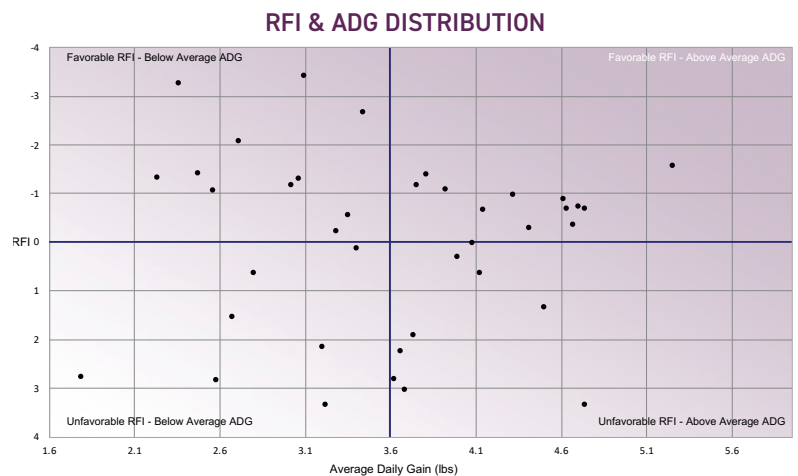

CAPTURE THE DATA THAT MATTERS MOST

- Collect individual animal feed intake, growth & behavior data
- Monitor and validate performance
- Gather key data without stress to the animal

2 Vytelle INSIGHT

TURN DATA INTO KNOWLEDGE

- Identify elite performing animals
- Increase the genetic advancement of each generation
- Optimally market cattle

3

Vytelle ADVANCE

ACCELERATE GENETIC PROGRESS

- Multiply elite genetics with hormone-free *in vitro* fertilization (IVF)
- Shorten generation intervals
- Improve reproductive efficiency
