Individuals with mental health concerns, intellectual and developmental disabilities, children with serious emotional disturbance and persons with substance use disorder. We are committed to providing a holistic approach to care in these five areas: behavioral, economic, physical, meeting their social and spiritual needs. We are doing that by collaborating with our Provider Network who can assist you in many different areas of your life so you can live and work as a productive citizen in the community of your choice.

My pledge to you is that all DWIHN decisions be made in your best interest. Our system of care will provide safeguards against stigma; promote delivery of care with integrity, dignity and respect. We are also very proud to offer care that is evidenced-based and data driven which enhances the outcomes of your recovery and maintains quality of services rooted in integration of care.

We want to partner with you on your healthcare journey. We look forward to your feedback, experiences, concerns, successes and issues that you feel are important. We are committed to excellence and strive to deliver programs and care that exceed your expectations.

Please keep us posted on how we can work together in helping to improve the healthcare you receive. You may contact my office by calling 313.833.2500.

We will eliminate stigma and discrimination to enhance the protection of human rights and dignity. The necessary requirements will be used to empower people seeking care for mental and emotional health conditions, substance abuse and/or other disabilities to participate fully and equally in society. We would like to offer freedom of choice as it relates to your on- going process of recovery and keep you involved in your care on sensitive needs and culture.

# Independent Facilitators

The Detroit Wayne Integrated Health Network (DWIHN) supports the value of an Independent Facilitator during the Person-Centered Planning Process (PCP). An Independent Facilitator is a person other than a staff member at your behavioral health provider agency who can help you design and develop your PCP. An Independent Facilitator has no financial interest in the outcome of the supports and services outlined in your PCP. The role of the Independent Facilitator is to act as an advocate to ensure your voice is heard and is the focus of the meeting. The Independent Facilitator works in partnership with you to help you express your goals and write them in a format that is easy to understand. You have the right to choose anyone you desire to assist with your PCP at no charge to you. It is the responsibility of the Service Provider to facilitate the payment for your Independent Facilitator.

The DWIHN Customer Service Unit maintains a list of Independent Facilitators, however we recommend that you meet with the facilitator in advance to discuss your needs before your PCP session. See the list below of Independent Facilitators in Wayne County.

# Crisis Centers for Adults and Children

Crisis Centers are centers that provide crisis counseling, solution-focused and recovery-oriented behavioral health assessments, and stabilization. If you or someone you care about is experiencing a behavioral health crisis, or you aren't sure what help may be needed, you may call or go to one of our crisis centers. These centers help resolve behavioral health crisis situations by offering individual crisis response, family support, link to resources and help to access behavioral health services, hospital care and hospital alternatives. The goal is to stabilize the situation so a person in crisis can return home safely, with plans and resources to manage any ongoing needs.

## Autism Spectrum Disorder (ASD)

ASD is a developmental disability caused by a problem in the brain. Scientists do not know yet exactly what causes it. ASD can impact a person in different ways. People with ASD may have problems with social, behavioral, and communication skills. Many people also have different ways of learning, paying attention, or reacting to things. ASD begins during early childhood and lasts throughout a person's lifetime.

A person with ASD might:

- ✦ Not respond to their name by 12 months.
- ✦ Not play "pretend" games at 18 months.
- ✦ Avoid eye contact and want to be alone.
- ✦ Have trouble understanding other people's feelings or talking about their own feelings.
- ✦ Have delayed speech and language skills.
- ✦ Repeat words or phrases over and over.
- ✦ Give unrelated answers to questions.
- ✦ Get upset by minor changes.
- ✦ Have obsessive interests.
- ✦ Flap their hands, rock their body, or spin in circle.
- ✦ Have unusual reactions to the way things sound, smell, taste, look or feel.

## Children's Waiver Program

The Children's Waiver Program (CWP) makes it possible for Medicaid to fund home and community-based services for children who are under age 18. To be eligible for the CWP, the child must have a documented developmental disability and need medical or behavioral supports and services at home. In addition, the child must have behavioral or medical and rehabilitative needs at home on a consistent daily basis that meet requirements for the level of care for an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). To start the process, the Wayne County resident or family contacts the Detroit Wayne Integrated Health Network Access Center at 800.241.4949 and requests an assessment for the Children's Waiver Program.

**The Children's Waiver (CWP) is managed by the following three (3) Service Providers:**

This program is designed as a community-based alternative to living in a group home.

# Serious Emotional Disturbance Waiver Program

The Serious Emotional Disturbance Waiver (SED/CW) provides services that are enhancements or additions to Medicaid State Plan coverage for children through age 20 with SED/C. The MDHHS operates the SED/CW through contracts with the Community Mental Health Service Provider (CMHSP). The SED/CW is a fee-for-service program administered by the CMHSP in partnership with other community agencies. The SED/CW enables Medicaid to fund necessary home and community-based services for children with serious emotional disturbance who meet the criteria for admission to the state inpatient psychiatric hospital (Hawthorn Center) and are at risk of hospitalization without waiver services. The CMHSP is responsible for assessment of potential waiver candidates.

## SED/C Waiver Eligibility

### The child must:

- Be under the age of 18 when initially approved for the waiver, but can remain in the waiver until the age of 21 if other eligibility requirements are met.
- Reside with birth/adoptive parents as a Temporary Court Ward (TCW), reside in foster care as a TCW/Permanent Court Ward (MCI), or have completed the adoption process through the Child Welfare system.
- Have an SED/C and meet inpatient psychiatric hospitalization criteria
- Have a primary DSM Axis I diagnosis
- At risk of inpatient hospitalization
