Helping you select the right materials and finishes.

3d Drawings and Renders

No surprises later ! View your place before start of work.

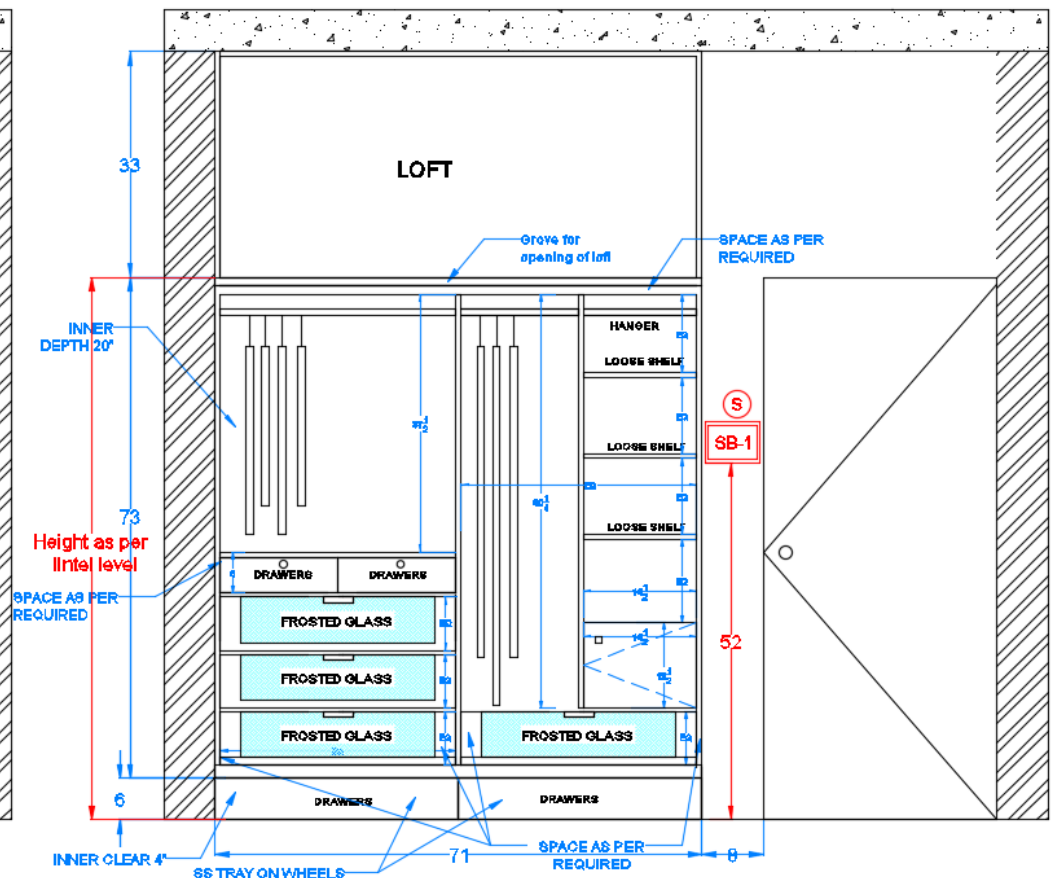

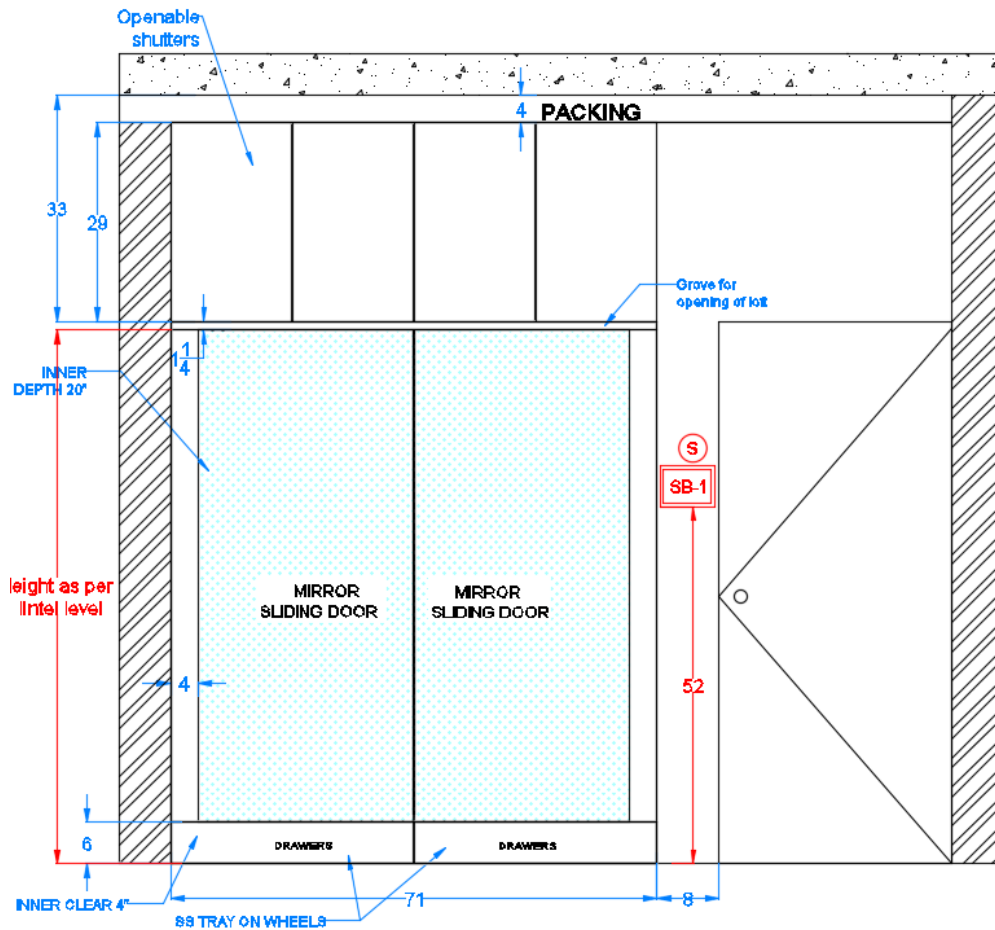

Execution

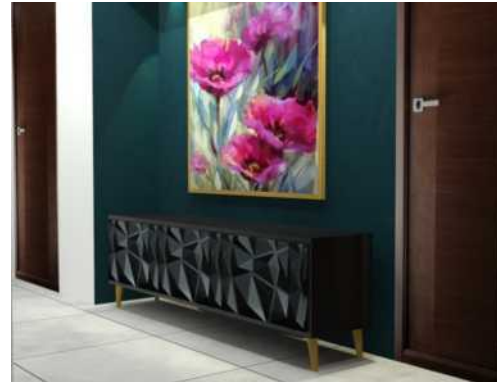

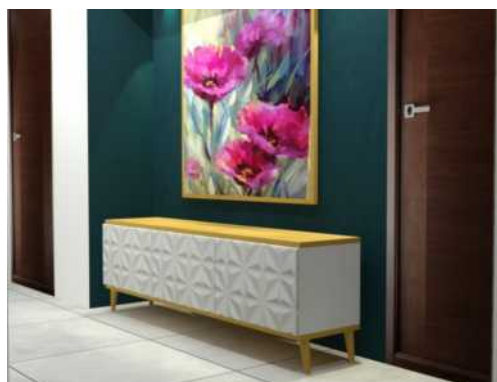

Project planning and supervision for smooth running of operations.

FURNITURE DESIGN

Furniture matters to interior designers in the same way that books matter to librarians. It's important because interior design is concerned with the design of spaces, and what makes those spaces is **furniture**. We do complete detailing of the furniture products based on the clients need. Selecting the right sizes, materials, finishes, hardware etc. plays a vital role in determining the functionality, aesthetic sense of the furniture.

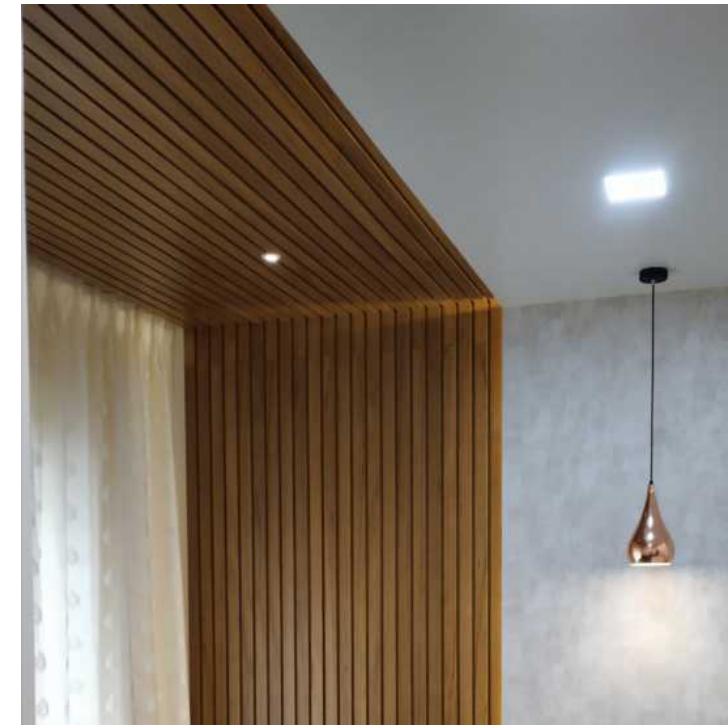

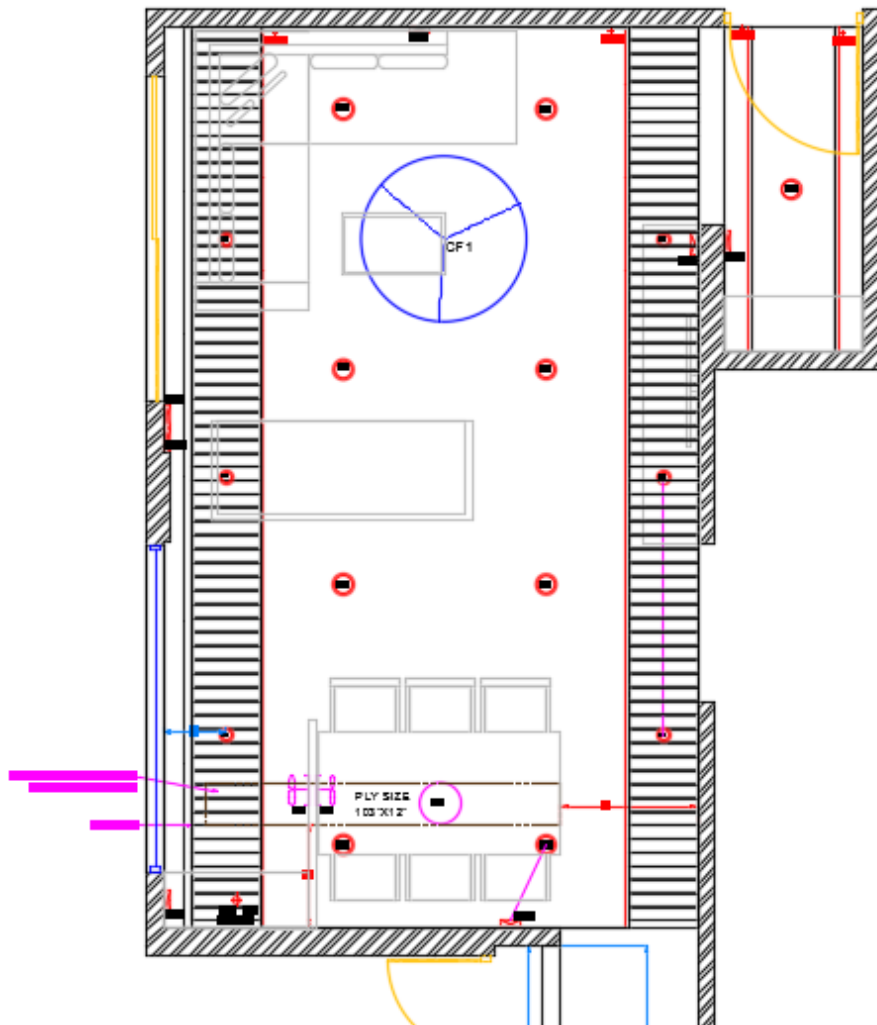

FURNITURE DESIGN

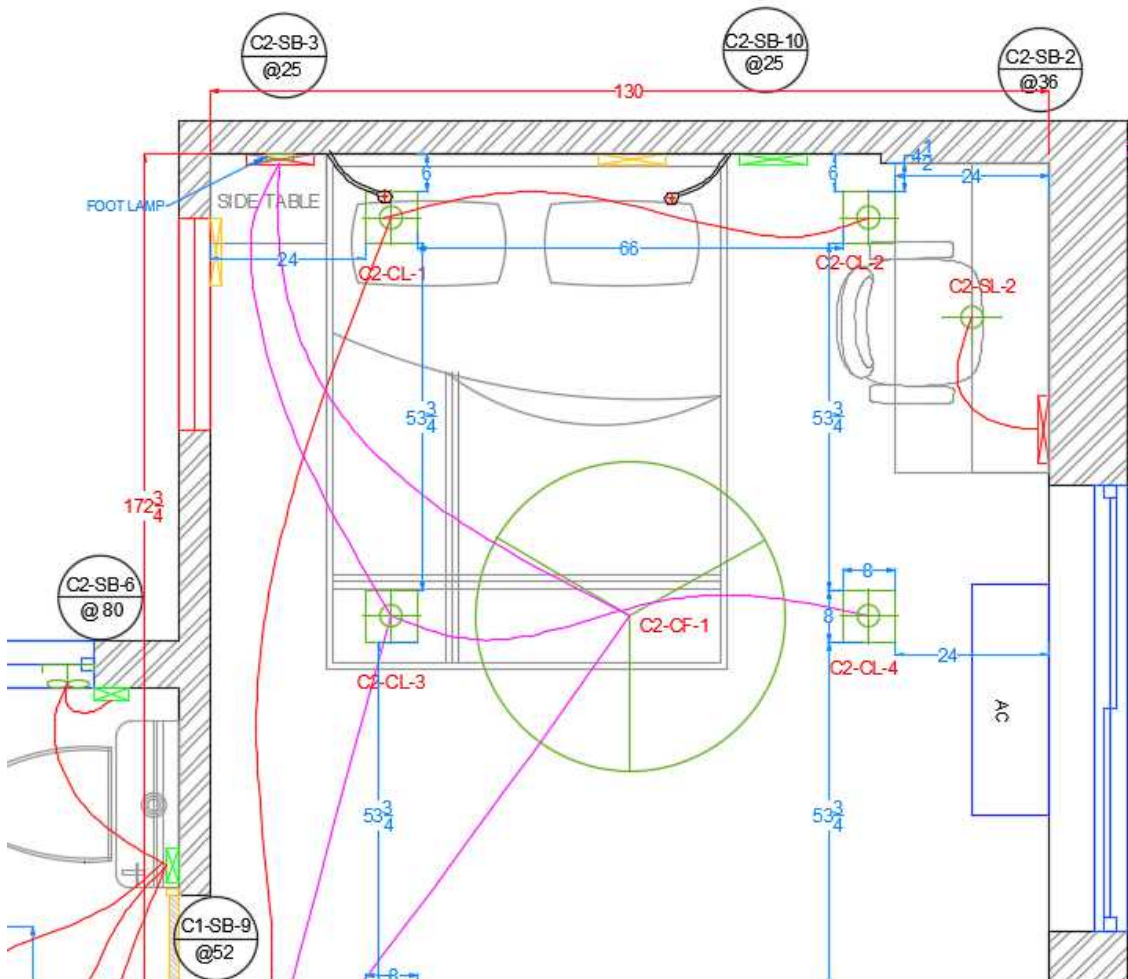

FALSE CEILING

Ceilings are one of the important elements of an interior space as they offer the maximum unobstructed view of home interior spaces. As a result, the ceiling is an important element of home interior layout and defines its aesthetics.

ELECTRICALS

Electricals drawings, sometimes referred to as wiring diagrams, are a type of technical drawing that provide visual representation describing electrical systems. The lighting in a home changes the mood of a room just as it does the perceived size of the room. Placement and type are important aspects of interior design, and they work in conjunction with colour selections, room size and availability of natural light.

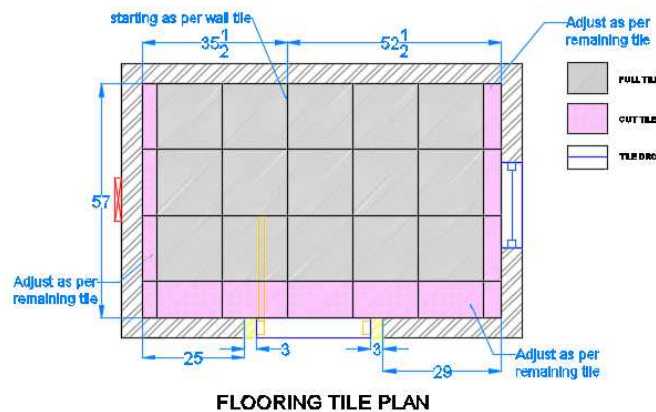

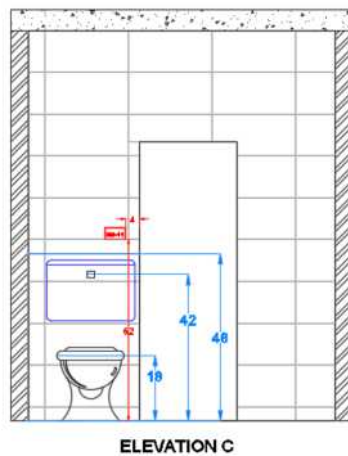

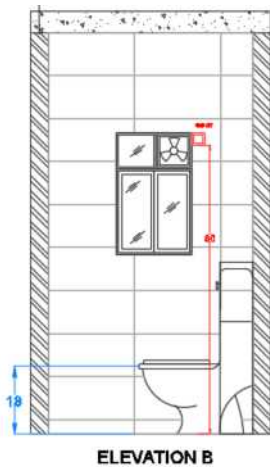

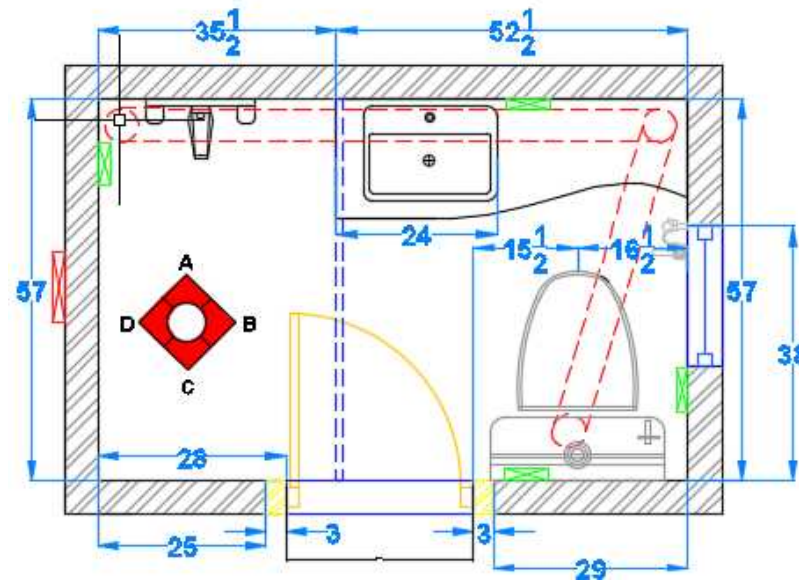

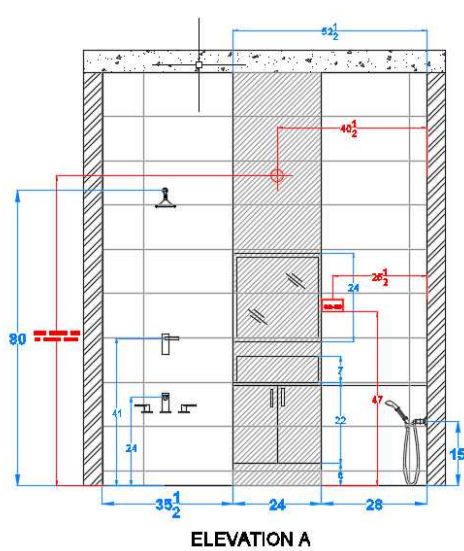

SWITCH BOARD DETAILS

Switch Board ID	Room	Modules	Details	Elevation
C2-SB-1	CHILDRENS BEDROOM 2	8 MODULES	C2-CL-1/2, 2 WAY-C2-CL-3/4, C2-CL-5/6, 2 WAY-C2-CF-1, 1SW+SOC, (SWITCH BOARD ON INVERTOR)	@ 52

CIVIL & PLUMBING

Space is one of the most important elements of interior design. Space acts as a foundation on which the entire interior design plan is built. Civil changes helps towards achieving the same. We carry out civil work such as tiling, demolition and creating walls, remodelling of bathrooms, window and door frames etc.

PAINT & WALL FINISHES

Transforming our home is one of the most gratifying experiences of our lives. However, it can also be confusing. What colours to choose? Which finishes to go for? What paints to Use and Where ?

PAINTING WALLS INSIDE YOUR HOME

There's nothing more beautiful than waking up to your favourite colour. But with the right use of light and colour changing your rooms appearance, how do you decide which colours to choose ?

	STEP 1 SURFACE PREPARATION: Use a wire-brush to remove loose dust particles and clean the wall surface.
	STEP 2 PRIMING: Once the surface is ready, apply one coat of Asian Paints Decoprime Wall Primer. This prepares the surface for putty application.
	STEP 3 PUTTY: Apply Asian Paints Acrylic Wall Putty to smoothen the surface and rid it of holes, dents and undulations.
	STEP 4 PRIMING: Apply Asian Paints Decoprime Wall Primer once again to finally ready the surface for the topcoat. This primer coat helps your paint to stick better on the surface.
	STEP 5 TOPCOAT: Apply 2-3 coats of the final topcoat to get a consistent and great looking shade. You can choose from a wide variety of shades and products provided by Asian Paints for best results.

CHOOSING COLOURS

There's nothing more beautiful than waking up to your favourite colour. But with the right use of light and colour changing your rooms appearance, how do you decide which colours to choose ? Here are some tips.

	<p>Warm yellow bulbs give your room a cosy look while white lights give your room a fresh and airy feel.</p>
	<p>Choose pastel colours like lavender, mauve, creams and ivory to create a soothing atmosphere and a feeling of calm and relaxation in your room. Soothing colours go well in bedrooms.</p>
	<p>Simply painting one of your interior walls with vertical stripes can create an illusion of height in your room.</p>

FURNISHINGS

The decoration and look of the house play a major role in determining the mood of the place. The décor of the house also has an effect on the mood of the people living in the house, so it is important to pay attention to the décor. A good looking house is good for getting rid of anxiety and stress. Adding decorative touches helps in increasing the appeal of rooms.
