

# OSHA-NIOSH HEAT SAFETY TOOL APP

Download the OSHA-NIOSH Heat Safety Tool App to monitor the Heat Index for your area in real-time or use the hourly feature.

This is a great tool for planning outdoor work and activities.

Features:

- Heat index levels specific to your current geographical location
- Precautionary recommendations specific to associated risk levels
- An interactive, hourly forecast for advance planning
- Editable location, temperature, and humidity controls
- Signs, symptoms & first aid information for heat-related illnesses
