Puppy Health Guarantee

Within 10 days of purchasing your new puppy, you must take him/her to a licensed veterinarian for an examination. If the veterinarian determines, within 10 days of purchase, that your puppy/dog is clinically ill or has died from an injury sustained or illness likely to have been contracted on or before the date of sale and delivery, you have the following options:

-Return the dog for a complete refund

-Return the dog for a replacement dog of equal value (when available)

-Retain the dog and receive reimbursement for reasonable veterinary fees, not exceeding the purchase price

-These options do not apply where a seller, who has provided a health certificate issued by a veterinarian, discloses in writing at the time of sale the health problem for which the buyer later seeks to return the dog.

This puppy comes with a 1 year congenital or hereditary guarantee. If within 1 year of purchase, a licensed veterinarian determines that your dog has a congenital or hereditary defect which adversely affects the animal's health or that your dog has died from a congenital or hereditary defect, you have the same options as outlined above. Seller reserves the right to have a 2nd veterinarian's opinion before any reimbursement is given.

You MUST notify the seller of the examining veterinarian's name, address, and phone number within 2 days of the veterinarian's certification of your dog's illness. Failure to notify the seller within 2 business days will result in forfeiture of rights.

-These guarantees do not cover normal veterinary costs incurred while providing general care for the puppy.

-Proper documentation must be provided to the breeder before any compensation will be given.

-This guarantee does not cover any costs incurred related to injuries caused by owner negligence or accidental injury.

-If any issues are discovered and purchaser chooses to return the puppy, seller is not responsible for any shipping costs.
