

## Collaborating with The Universe: Getting Your Prayers Answered

**Universe always answers our prayers, always gives us what we want... if we ask for it. This means that what we get is what we ask for, and this law has no exceptions.**

So most of the times we think that what we get is not what we want or what we asked for and for this there are two possible reasons:

\*The first one is that we ask for what we get in a more powerful way and it is not possible for the Universe to grant us both wishes. For example, if one thinks that he or she wants to get rich, but all the time he or she thinks of their poor situation, small salary, and many financial obligations, then they ask for poverty in a more intent, and therefore more powerful, way than for riches, and it is impossible for the Universe to grant both wishes, so chooses grants the one they ask more powerfully.

\*The second most common reason is that we don't make it clear, so our energy as well as the universal one scatters.

Here is a straightforward way to make your wish clear to the Universe, and work with it to have your wish come true.

Pick one thing you want to accomplish in your life. Choose something that you believe you can accomplish and that you really want to. If you don't believe you can have what you wish, you won't.

If you don't really want something you will not be motivated to act according to what your heart desires. So choose something simple and pleasant. As you are becoming more familiar with this method you can achieve things that you couldn't even imagine.

Now, write down on a piece of paper what is this that you want to receive. Write it with as many details as you can. Even put a photograph of it, if you have one. Write it in a manner like "I am getting a..." and not in a way like "I would like to have a..."

Now, write down everything YOU CAN and YOU WANT to do to receive what you are asking for. Most people think there is nothing to do, or keep thinking of what they cannot do.

### **There is always something you CAN do.**

No matter how insignificant it seems. Doing it, it will help your wish to be granted. Maybe you want to buy a new car. And maybe the only thing you think you can do for it is to put one dollar in a piggy bank each day. Well, this is enough. But don't try to outsmart the Universe... for you cannot. So be honest on what you feel comfortable you can do and want to do for your wish to come true.

Write everything you are going to do on the paper. Then every day, choose a time you can be quite undisturbed for about half an hour and read your papers. Read both what you want and what you are doing for this to come to you. Then close your eyes and visualize yourself having what you want, and being happy and grateful. And of course, keep doing what you have promised to the Universe you are going to do. And rest assure that the

**Universe will do whatever else is needed to be done for your wish to come true.**
