HEFTE RANCH

Welcome

*Dear Friends and Fellow Cattle Producers,*

Wow, we are so very excited to be hosting the **Sixth** Annual Strait-Hefte Tried & True Production Sale along with Hefte Ranch. We are very appreciative of the support this sale and our Santa Gertrudis genetics have received. We have changed things up a bit this year and **will be selling ALL BULLS and COMMERCIAL FEMALES on Friday, October 20th at 2:00 pm. REGISTERED FEMALES will sell Saturday, October 21st starting at 10:30 am.**

Our family has been blessed with the opportunity to raise Santa Gertrudis cattle for over 70 years and we are proud to be an integral part of the progress and momentum that the Santa Gertrudis breed has experienced. We are focused on continuous improvement and identification of superior genetics and we know our customers are as well. We feel it is the perfect time to showcase the quality cattle and genetics of our buyers alongside our own. We are so happy and honored to have Bended Steel Cattle, the Fisher Family, Flying C Ranch, Harris Farms, Korban Cattle, Stroman Cattle Company and Tideland Farms consign exceptional lots.

We are really excited about this year's sale offering. Our goal has always been to raise fertile, functional, and efficient cattle while still maintaining a strong phenotype. Most of our yearling cattle and calves at side are sired by our young herd sires like SR Mpact 2/H4, SR 368/G1 "Beast", QVF Red Rock 82H11, and Urbanosky 035 "Urban Legend" as well as AI sires. We think this may be one of the best sets of young cattle we have ever offered as their pedigrees are stacked with proven producers. We selected bred heifers and cows from the heart of our operation. We believe that our bull offering includes several bulls with AI sire potential but are most excited about the group as a whole. All bulls were developed on a silage-based ration at Land Air, Inc on Brown Ranch in Beeville, Texas. We hope that everyone can find something that fits their programs.

We are thankful that we get the opportunity to continue Dad's vision and legacy. We have a wonderful team at Strait Ranches consisting of Henry Zarate and Su McMahan and Jesus Rodriguez. We are extremely thankful for their hard work and dedication.

We invite you to join us on October 20th and 21st in Streetman for the sale. We would also love to have you out prior to this date to view the sale cattle. Online bidding will be available on sale day via DVAuction.com. If you have any questions about our offering, please feel free to call Yancey (972.841.0989), Henry (361.920.0718) or Callie (210.837.1199).

We are so very thankful for each of you, for health, family, friendships, recent rains, lasting legacies and the power of hard work, dedication and Santa Gertrudis genetics.

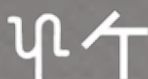

Many thanks,  
The Y.N. Strait Family

# Welcome

## Dear Friends,

We are happy to be back for our Sixth Annual Strait-Hefte Tried & True Production Sale. We are blessed to be able to have these red cattle and the folks who love them in our lives.

Last year's welcome letter referenced 2022 as the hottest, driest summer in recent memory, well, little did we know then that 2023 would top it! We sound like a broken record here, but once again, we are thankful that our Santa Gertrudis cattle have what it takes to withstand the heat and drought conditions. Recent weather extremes are difficult to manage, but they do present an opportunity for our breed to expand its presence.

We are excited to present our 2023 sale offering. We have been able to blend our favorite bloodlines from KR 191/13, Hefte F14 Tomcat and Hefte Ranch D25 with great results. Our bred females have been AI'ed to a number of influential sires, including Kings Amigo KR766/20, QVF Jackpot 5369G8, SR Mipact 30/F2 and Hefte F19 Pure Swagger, and then cleaned up with proven low birth-weight sire, Red Doc Incinerator 1005. Many thanks to Black Tip Cattle Company for allowing us to use this young sire with top 1% BW EPDs. Our 2023 bull offering is the most consistent that we have ever produced. It is hard to pick our favorites due to the fact there are so many strong contenders in this set of bulls.

We are also extremely pleased to be able to include guest consignors in this year's sale. 5J's Beef & Cattle, Lackey Ranch, Tideland Farms and Zack Denning have all consigned heifers out of cattle purchased from this sale in previous years. We have also partnered on bulls with our genetics from Buena Vida Cattle Co., Wunderlich Farms, Lackey Ranch and 5J's Beef and Cattle that are featured in this catalog. Nothing makes us happier than to see our customers succeed with cattle they have purchased from us. Please feel free to call us to discuss these sale cattle, and please keep us updated on your past purchases. We hope to continue to build this sale with offspring from these cattle.

Thank you also to the Y.N. Strait Family. We are extremely fortunate to be able to co-host this sale with a family that shares our passion for the Santa Gertrudis breed. Their ranch in Streetman is so beautiful and their hospitality is second to none! We look forward to seeing everyone there on October 20th and 21st!

Truly,  
The Hefte Ranch Family

## Docility Score Descriptions

Score	Description
1	Very Comfortable- Bull stands quietly when evaluated.
2	Comfortable- Bull slowly walks when evaluated.
3	Uncomfortable- Bull walks faster when evaluated.
4	Nervous- Bull desires to return to herd when evaluated.
5	Very Nervous- Bull is aggressive when evaluated.

\*\*The above scores are presented as an additional tool to assist in the selection process, but all bulls may act differently in new/different situations/locations.

### LOAD OUT

Load out to begin after completion of the sale. The purchased animal is the sole responsibility of the buyer, but the sellers agree to maintain and care for all animals through Monday, October 23, 2023 at no additional cost. The seller is not responsible for any injury or loss after the animal is sold. If other arrangements are needed then those must be agreed to before the sale.

### TRANSPORTATION

We have arranged professional hauling services to be available sale day for buyers needing animal transportation. Central ranch drop off locations across the eastern United States and Texas can be coordinated. If you have any questions or need transportation assistance please contact Darrell Pitchford, 903.388.2288

### HEALTH PAPERS

Health papers for interstate shipment within United States will be provided for all animals.

### SIGHT UNSEEN PURCHASES

All purchases made on order or through the internet are 100% satisfaction guaranteed upon delivery.

### HOTEL ACCOMMODATIONS

SR 56/18 is an own daughter of the SR Genuine 69/6 bull out of an ET daughter of KR 97/10 and Briggs 567/8. She maintains a 367 day average calving interval after four calves and her dam has an average calving interval of 353 days after six calves. Above all else we strive for fertility, functionality and efficiency and this cow checks the boxes. We believe you can add this cow to your herd with confidence.

This KR 191/13 granddaughter is getting it done! Not only did she produce a stunning heifer calf, L24, but she bred back quickly in some of the worst drought conditions we have seen. She has a strong balanced EPD set to go along with her proven performance. We believe she will have one of the first calves from our young herd sire, Hefte Ranch K34, but she was also exposed to Hefte Ranch F14 Tomcat. Either breeding should produce a fantastic calf with strong EPDs.

Hefte Ranch retains the right to one flush or IVF procedure guaranteeing six (6) freezable embryos at seller's expense.

SR 308/20 is a SR Genesis 75/3 daughter out of an excellent Olivarez cow, 3/509. We successfully aspirated 308/20 as a yearling heifer and you will find a bull and heifer out of this flush in the sale. She has 7 traits that rank in the Top 30%. After two calves this female has a calving interval of 332 days.

**Heifer calf**

SR Ms Strategist 308/L is one of the few SR Strategist 32/20 calves that will ever be offered for sale. She has a stunning phenotype and excellent EPD profile with 7 EPDs ranking in the Top 35% or better.

MS N-N Chosen One 437J2 ET is a partnership cow that was selected by Dad and Kade when she was at side of her recipient dam at the Quail Valley Sale. She is sired by Chosen One and out of an awesome Gary Harding bred donor cow. We believe this cow has a long productive life in front her considering her excellent udder and the fact that she conceived via AI as a yearling. In addition to being super functional, she has 9 EPDs that rank in the Top 20% or better.

**LOT 11 - HEFTE RANCH K37**

If you want to add power to your herd, check out this female! This 3/4 Santa Gertrudis female will be the first Hefte Ranch H120 ET daughter we have sold. Sire H120 is a son of the infamous Red Angus bull, Brown Oracle B112 and one of our favorite females from our Hefte Ranch Z01 cow line. H120's genetics bring together growth, carcass and fertility. You will see more of his offspring and genetic influence in our herd in the future. Notice this heifer's performance – a 610 lb. adj. WW, a 5.3 %IMF with only .17 BF, and a 1.21 REA/cwt ratio. In addition, her outstanding EPD profile includes top 1% REA and ten traits in the top 25%. K37 may well have a QVF Jackpot 5369G8 calf at side on sale day or shortly thereafter. This calf will be registerable as a pure-bred Santa Gertrudis and will have phenomenal EPDs.

Performance in a pretty package right here! Don't miss this impressive, deep-bodied Hefte El Primero H04 daughter! Two years ago, Hefte El Primero H04 was purchased at the Tried & True Sale by ST Genetics and 5J's Beef and Cattle. It was an exciting moment for us, and we are thrilled to see the El Primero genetics proving to be so successful. This heifer's dam is a KR 191/13 daughter that was purchased in the 2021 Tried & True Sale by Zack Denning. In addition to a 719 lb. adj WW, K00 scanned a 5.08%IMF with a 11" REA.

LOT 12

**LOT 13 - HEFTE RANCH K10**

Stayability is the name of the game with this heifer's bloodline. Her dam, nine-year-old Hefte Ranch C98 has a 365-day calving interval with 8 natural calves produced. We elevated this cow to our donor program where she has produced an additional 7 calves from one flush, including Hefte Ranch K165 ET below and bull, Hefte Ranch K163 ET, both featured in this year's sale. Her granddam Hefte Ranch 229, produced calves every year until she was 18 years of age. K10's sire is Hefte Ranch G18, a KR 191/13 son, so she gets longevity and fertility from both sides of her pedigree. Sells safe in calf to low birthweight bull, Red Doc Incinerator 1005, a bull we own in partnership with BlackTip Cattle Co. Incinerator has a top 10% IMF EPD and a top 3% BF EPD, to go with his top 1% BW EPD!

**LOT 14 - HEFTE RANCH K165 ET**

This gentle, polled ET heifer is a half sib to the K10 heifer shown above. Same incredible dam with a 365 day calving interval after 8 calves, but this time crossed with our senior herd sire, Hefte Ranch F14 Tomcat. Stayability, fertility and carcass come together in this mating. This heifer has a balanced EPD profile across the board.

PE to Red Doc Incinerator 1005 05/01/23 to 08/01/23

We really didn't want to let this fancy Hefte Ranch F14 Tomcat daughter go! Her dam, Hefte Ranch E02 is a very productive cow from our very fertile Mabel W40 cow line. E02 has a 374 day calving interval with 5 calves produced and a beautiful udder. Notice the incredible EPD profile and indices on this pretty heifer. Eight EPD traits in the top 20%. She sells bred to low birthweight bull, Red Doc Incinerator 1005, a bull we own in partnership with BlackTip Cattle Co. Incinerator has a top 10% IMF EPD and a top 3% BF EPD, to go with his top 1% BW EPD! This cross should produce a low birthweight calf with a very balanced and impressive EPD profile.

This heifer has one of the highest EPD profiles in our offering – nine EPD traits within the top 15%! That's no surprise as Hefte Ranch F14 Tomcat and donor cow, Harris GunsUp 253F14 are both full of performance genetics. A low birthweight EPD and high growth EPDs, make this a curve bender that also has strong carcass EPDs. Likely safe in calf to King's Amigo KR766/20, but too close to tell as she was pasture exposed to Red Doc Incinerator shortly thereafter. Either breeding should produce great performance genetics.

This heifer is the result of an ET mating of Hefte Ranch F14 Tomcat and Hefte Ranch D21. F14 Tomcat has been a game changer for us, and D21 has proven herself time and again. At 7 years of age, D21 has produced six natural calves and six ET progeny while maintaining a 380 day calving interval. This heifer has an extremely balanced EPD profile with six traits in the top 15%.

PE to Red Doc Incinerator 1005 (20210008) 05/01/23 to 08/01/23

KR 191/13 is still going strong at 10 years of age, and here are a few daughters to prove it. This KR 191/13 daughter is out of LCR 526, a big, beautiful cow that we purchased from La Campana Ranch in the 2015 South Texas Heritage Sale. LCR 526 has been an amazing producer for us. An eight-year-old cow with a 369-day calving interval and 7 calves on the ground, including herd sire Hefte Ranch G112, purchased by Red Doc Farm in 2020 and heifer, Hefte Ranch J145, purchased by Kubena Cattle Co. This pretty female with top 15% indices has so much potential.

Red Doc Never Sank 5012 never fails to produce beautiful daughters. This one is out of KR 191/13 daughter, Hefte Ranch H100 who carries Corpboron Acres genetics on the dam side of her pedigree. This heifer scanned a phenomenal 5.3 %IMF with only .12 backfat. K124 sells AI'ed to Kings Amigo and cleaned up with Red Doc Incinerator 1005.

**LOT 36 - HEFTE RANCH K169 ET**

Attention mates, here is a heifer with some new purebred Santa Gertrudis genetics from Australia! At the 2019 World Congress, we made a trade with David Greenup of Rosevale Santa Gertrudis - semen from our Hefte Ranch D25 bull exchanged for straws from Rosevale Jethro J208 and Rosevale Jackaroo J566. We were very impressed with Rosevale's emphasis on fertility in their cattle. K169 is a cross between Rosevale Jethro J208 and Hefte Ranch A43 "Allie". Our A43 cow line has been very successful for us and is very influential in our herd. With these genetics, we expect fertility, growth and easy-fleshing ability. This heifer's EPDs are not accurate as her sire does not have any additional representation in our breed's database.

**LOT 37 - HEFTE RANCH K144 ET**

This ET heifer is a daughter of Harris Guns Up 253F14, a donor we own jointly with Strait Ranches. Her sire is D25 son, Hefte Ranch F60, owned by Wiley Ranch. There is tons of growth in these genetics along with fertility and carcass. Her ET sib, Hefte Ranch K147, one of this year's top gaining bulls is Lot 90 in Friday's bull sale. She boasts eight traits in the top 25%, with top 4% WW and top 5% YW.

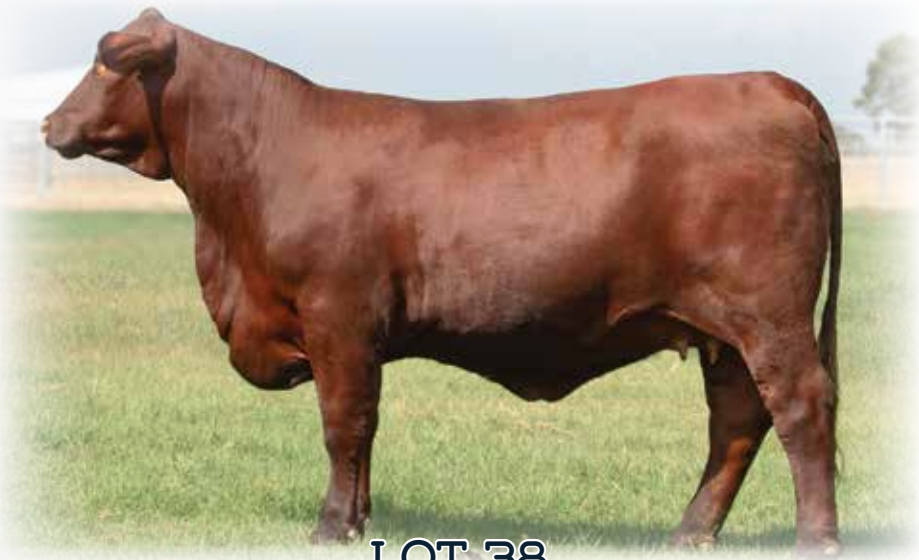

LOT 37

**LOT 38 - SR MS MARKSMAN ET 621/J9**

SR Ms Marksman ET 621/J9 is certainly a favorite at Strait Ranches as she has both an elite phenotype and genotype. She is a full sister to Avery Strait's 621/J12 show heifer that was Reserve Grand Champion at the Cattleman's Congress Open Show. 621/J9 is an ET daughter of SR Marksman 33/19 and out of the Briggs 621F6 donor cow. We lost the 621F6 donor cow in 2021 but her offspring continue to rise to the top. This heifer is a maternal sister to the our high selling bred heifer in last year's sale, SR Ms Uno ET 621/J4, that sold to Carleton Farms and Bended Steel for \$17,000. This bred heifer has 8 EPDs that rank in the Top 20% or better and excellent yearling scan data with ADJ IMF of 6.36 (Ratio 109) and ADJ REA of 9.02 (Ratio 105).

**LOT 39 - SR MS MPACT ET 654/J10**

SR MS MPact ET 654/J10 is another elite female sired by the SR Mpac 30/F2 bull owned by Vesper Ranch and out of the SR 97/18 donor cow who has a 369 day average calving interval after 3 natural calves. We love the SR Mpac 30/F2 daughters so much that we have started buying some of them from other breeders. We have tried to stack this sale with females out of some of our most proven cow lines and 97/18 is one of our best producing cows. Look for this female's maternal sibs in this sale, SR Ms Uno 654/K2 and SR GUNS UP ET 654/J8. This heifer is a full sibling to our open heifer that topped our 2021 sale purchased by Wiley Ranch and Quail Valley Farms. With 6 EPDs in the Top 30% or better and excellent set of indices this heifer is a sound investment.

LOT 39

**LOT 40 - SR PARADIGM ET 308/K2**

SR Paradigm ET 308/K2 is a favorite at Strait Ranches sired by the SR Paradigm 135/7 bull now owned by the Branch family and out of the SR 308/20 donor cow in this sale who has a 332 day calving interval after two calves. Please look for he full brother also in this year's sale. This heifer has a great phenotype and 7 EPDs in the Top 45%.

**LOT 41 - SR MS MARKSMAN 915/K**

SR MS Marksman 915/K in our eyes is a donor prospect. She is sired by the SR Marksman 33/19 bull now owned by Mattingly Farms and out of an ET daughter of NC SJ High Roller and the great Silva 915 donor. Her dam has an average calving interval of 393 days after four calves. If you like cattle that rank in the Top 1% this might be your heifer with a Top 1% WW, YW & CW and all indices ranking in the Top 1%.

SR Ms 27/6 23/K is out of our "Champion of the World" and National Open Show Champion, SR Hazel 23/7. She is sired by the SR 27/6 bull who is a full sibling to SR Genesis 75/3. We love collecting cows out of great cows but also like linebreeding proven genetics.

**SR HAZEL 23/7  
DAM OF LOT 66**

This female is double bred LJV Mason 0/72 who was and is the backbone of our breeding program. With 10 EPDs ranking in the Top 35% she has one of the best EPD profiles in the offering.

**LOT 67 - SR MS PARAMOUNT 621/L2**

We think SR Ms Paramount 621/L2 should be in a donor line up at some point. She is the first daughter of Reese Ranch's SR Paramount 30/H4 that we have offered for sale and is out of an excellent ET daughter of GO Uno 806 and Briggs 621F6. Her dam is a full sister to our high selling bred heifer in last year's sale, SR Ms Uno ET 621/J4, that sold to Carleton Farms and Bended Steel for \$17,000. This young heifer combines show ring eye appeal with an awesome balanced EPD profile and a stacked pedigree of proven producers. SR Ms Paramount 621/L2 combines growth and carcass into a balanced EPD profile with 8 EPDs ranking in the Top 30% or better.

Hefte Ranch and Korban Cattle retain the right to one partnership flush or IVF procedure guaranteeing a minimum of six (6) freezable embryos at seller's expense.

**LOT 68 - HEFTE KORBAN L124 ET**

We would love to have a whole herd of heifers just like this one – she is our type! Gentle, thick-made, easy fleshing, deep-bodied and free moving, L124 really puts it all together and she will stand out in any pasture! Her sire, Red Doc ET Todo 9561 scanned a 8.34 %IMF with a 14.57" REA. Her dam brings exceptional King Ranch genetics to the table. Strong EPDs and a beautiful phenotype to boot! Don't miss this potential donor cow.

LOT 68

**LOT 69 - SR MS UNO 654/K2**

As I'm typing footnotes on our open heifers I realize that I have lost my mind. I believe this is the best set of open heifers Strait Ranches has ever offered. SR Ms Uno 654/K2 is an own daughter of GO Uno 806 and out of the SR 97/18 donor cow who maintains a 369 day average calving interval after 3 natural calves. SR 97/18 was the dam of our 2021 high selling heifer, SR MS MPact 654/H, that sold to Quail Valley Farms and Wiley Ranch for \$20,000 as well as dam to Double Barrel's SR MS Guns Up ET 654/J15 and JTP Cattle Company's SR Smoke Show ET 654/J11. SR Ms Uno 654/K2 offers an outstanding EPD profile with 9 traits ranking in the Top 30% or better.

**LOT 70 - SR MS RED ROCK 30/K12**

SR Ms Red Rock 30/K12 is an own daughter of the QVF Red Rock 82H11 bull and is out of SR 30/G2, a full sibling to SR Surge 41/9 and SR Gulf Strait 25/20 who were both previous Tried & True high sellers purchased by Wiley Ranch. SR Ms Red Rock 30/K12 combines two of the most prolific Santa Gertrudis donors in her pedigree, SR Arkoma 30/0 and Harris 82/4. Harris 82/4 is now owned by Red Doc Farm but produced both carcass and show standouts for Quail Valley Farms. With 9 EPDs in the Top 35% this heifer offers versatility when making breeding decisions.

SR Ms Red Rock 621/K2 continued to catch our attention after weaning due to her depth and natural thickness. We have had great success with the Briggs 621 maternal line and have purchased two 621 branded cows at previous Tri Star sales. 621/K2 is another daughter of the QVF Red Rock 82H11 bull who has exceeded our expectations. We hope you will consider using him in your AI programs after evaluating his offspring in the sale. This heifer offers strong maternal, carcass and growth EPDs with 9 EPDs ranking in the Top 35% or better.

We think SR Ms Beast 30/K14 has tremendous style. She is sired by our SR 368/G1 "Beast" bull and out of SR 30/F4, a full sister to the \$46,000 SR Mipact 30/F2 bull bought by Vesper Ranch and the \$30,000 SR 30/F3 female purchased by Korban Cattle. We believe that you can never have too many great cows in a pedigree and this female combines two of the best females at Strait Ranches in SR Arkoma 30/0 and 3S2E Marla 368D2 who has a 381 day average calving interval after 5 natural calves. SR Ms Beast 30/K14 is another female with a balanced EPD profile having 9 EPDs ranking in the Top 30% or better.

Korban Cattle K27 is a beautiful moderate heifer that boasts 8 traits in the top 20% including a .38 MARB., and .31 REA EPD's. K27 is an outstanding result of a pristine lineage that goes back to when Strait Ranches mated KR catalyst 531/15 & SR 21/15 to produce K27's dam which has consistently worked for our herd, and we wanted to push it a step further when we decided to breed her dam to a true powerhouse red angus bull that has brought amazing results! FUTURIST 9031G! This bull has produced some of our most consistent deep bodied and moderate frame score females that combine a well balanced phenotype, and awesome EPD profile's! So regardless if you want to hit the show world or just bring an outcross to improve your herds EPD's, K27 is the option for you!

We are selling choice of embryos out of the High Selling Bred Heifer in the 2022 Tried & True Sale. The Dam of these embryos is one of the leading donors in our pen. Take your pick by 3 of the top sires in the breed. Embryos sired by C-P Copperhead 914C4, SR Guns Up ET 368J3, and Grandview John 316. Think carefully on your choice or get all three packages and not go wrong. Lots of potential in these matings. Guarantee 1 pregnancy per set if put in by Certified Embryologist.

**LOT 80 - SR CROSSFIRE 621/J13**

621/J13 is a product of one of our most successful flushes crossing the SR Marksman 33/19 bull with the Briggs 621F6 donor cow. Prior to losing his dam, 621F6, she had a calving interval of 327 days after two calves. He is a full brother to Avery Strait's 621/J12 show heifer that was Reserve Grand Champion at the Cattleman's Congress Open Show as well as the 621/J9 heifer selling in this year's sale. His maternal sister was our high selling bred heifer in last year's sale, SR Ms Uno ET 621/J4, that sold to Carleton Farms and Bended Steel for \$17,000. Although this bull has 10 EPDs that currently rank in the Top 20% or better and possesses a 7.0 ADJ IMF (Ratio 135) we are probably more impressed with his phenotype. We collected this young bull last spring and have used him in our AI program.

**LOT 81 - SR GUNS & ROSES 23/K2**

23/K2 is an own son of our National Champion SR Hazel 23/7 cow and sired by one of our favorite bulls, Harris GUNS UP 216/5. Circle L Ranches purchased a flush in the SR Hazel 23/7 cow for \$17,000 in last year's sale and her offspring continue to exceed our expectations. We love stacking genetics and this young prospect goes back to the WR NEW MILLENNIUM H233 bull three times. With 7 EPDs ranking in the Top 35% or better this bull allows you to chase performance without giving up phenotype.

**LOT 81**

**LOT 82 - HEFTE RANCH K50**

This Hefte Ranch F14 Tomcat son reminds us so much of his sire. His dam is a first calf heifer with a stellar pedigree combining KR 191/13 and A88, the dam of Hefte Ranch D25. It is pretty amazing to pick out your favorite bull, look at this pedigree and see the genetics line up! This bull is no slouch on performance, he posted an actual YW of 1270 lbs with a 1.18 REA/cwt. Take a look at his amazing EPDs across the board – nine traits in the top 15% including top 4% REA, top 10% MARB. He is a curve bender with top 15% BW and top 3% YW.

**LOT 83 - HEFTE RANCH K60**

Another Hefte Ranch F14 Tomcat son that brings it all together. He is a long-bodied, perfect sheathed bull. He is a great example of the strength of the F14 Tomcat x KR 191/13 mating. He is big topped and gentle as a puppy. We think he will work successfully with a variety of cow types. K60 is out of Hefte Ranch G05, a KR 191/13 daughter with AJH 126/0 on the bottom of her pedigree. G05 is a 4 year old cow with three calves on the ground and a perfect calving interval of 365 days. This bull posted a 15.61" REA and a 1265 lb YW resulting in a 1.23 REA/cwt. He has a solid EPD profile and indices.

557/K is maternally backed by some of the best cattle ever owned by Strait Ranches including: National Junior Champion SR Isabella 557, PH Welder 7/342, AL Zeus and SR T22. He is sired by the consistent producing SR 87/7 bull who is out of the Red Doc 5287 donor cow. We think this bull is a standout phenotypically but maintains a balanced EPD profile with 7 EPDs ranking in the Top 30% or better.

LOT 85

**LOT 86 - HEFTE RANCH K28**

This genetic combination is what we have been striving for the past five years - F14 Tomcat x KR 191/13 Daughters! By design, you will see it scattered all throughout this year's Tried & True Sale offering. Hefte Ranch K28 symbolizes a well balanced bull featuring phenotype, carcass, and fertility. Dig into this bull all you want, because the more you do - the more you will appreciate him. K28's dam, Hefte Ranch G45 has a 370 day calving interval with three calves produced. K28 has a very solid and balanced EPD profile with nine traits ranked at 35% or better, including top 10% Marb.

**LOT 89 - SR GUNS UP ET 654/J8**

654/J8 is a son of the Harris GUNS UP 216/5 bull and out of the SR 97/18 donor who has 369 day average calving interval after three natural calves. This bull is a full brother to JTP Cattle Company's SR SMOKE SHOW ET 654/J11 and Double Barrel's SR MS GUNS UP ET 654/J15 who just produced an excellent bull calf. This bull is also a maternal sib to high selling Tried & True open heifer, SR Ms MPact 654/H, purchased by Quail Valley Farms and Wiley Ranch. This young bull has 7 EPDs that rank in the Top 20%.

LOT 89

### LOT 90 - HEFTE RANCH K147 ET

An ET son out of Hefte Ranch F60 owned by Wiley Ranch and donor cow, Harris GunsUp 253F14. K147 has always been so stout and carried so much rib shape. He is not a little bull by any means, but he is ALL bull by all means. Check out his nearly 6 lb. ADG!! His dam, Harris GunsUp 253F14 has been throwing some incredible offspring for us with powerful growth. Hefte Ranch did use this bull as a yearling and we think he will add a lot of substance back to some of these high marbling genetics that need some "oomph". This is a powerhouse bull that brings a lot of growth to the table!

### LOT 91 - HEFTE RANCH K167 ET

Here is a complete outcross and a really unique pedigree! At the 2019 Santa Gertrudis World Congress, we set up a trade - straws of Hefte Ranch D25 for straws of Rosevale Jethro J208, with David Greenup of Rosevale Santa Gertrudis. Rosevale is one of the top SG breeders in Australia and we were impressed by the emphasis their operation places on fertility. We flushed one of our favorite cows to Jethro J208 and are very pleased with the results. Don't judge this bull based on his EPDs, his sire was added to our database and therefore, has no data yet. His EPDs will only improve over time! Please take a look at his ET sister, Hefte Ranch K169 - Lot 36.

LOT 91

**LOT 92 - HEFTE RANCH K66**

K66 is a bull that catches your attention. This bull is big boned, moderate and has eye-appealing breed character. He is a SR Paradigm 135/7 son out of first calf heifer, Hefte Ranch H92, who is a daughter of Hefte Ranch D25. These genetics are well proven and trusted throughout the entire breed. K66 weaned at an adjusted 598 lbs. and has a strong EPD set with eight traits in the top 30%.

**LOT 93 - MR. WF 2057**

The SR Paradigm 135/7 cross with Hefte Ranch D25 daughters obviously works well! This Paradigm son is out of a D25 daughter that Wunderlich Farms purchased from us in the 2021 Tried & True Sale. This incredible bull weaned at an adjusted 632 lbs and posted an adjusted 1200 lb. yearling weight. 2057 maintains a modern look without sacrificing mass, it's a combination that is hard to pass up.

017/K2 is an ET son of CB Nitro 46/18 out of the DP MISS GRETCHEN 017G6 ET donor cow that has an incredible pedigree including CP Copperhead 915C4, CVF 2022, and the Harris 017/9 donor cow. This young sire combines show ring phenotype with performance as he has 5 EPDs ranking in the Top 25% or better.

Two years ago, we sold Hefte El Primero H04 at this sale. He was purchased by ST Genetics and Five J's Beef and Cattle. He is currently the first and the only Santa Gertrudis offered in the ST Genetics bull battery. Before we sold him, we used H04 as a cleanup bull on our heifers. He bred over 19 heifers before reaching his 2nd birthday! He produced 8 known bull calves that season and SEVEN of them made it into this sale! Five of his heifers can be found in the female sale. This deep-bodied, easy fleshing and extremely gentle H04 son, Hefte Ranch K78, is out of a Hefte Ranch D25 daughter. He boasts a strong EPD profile with top 10% WW, top 5% YW and top 10% REA.

Typically only our top 25% of bull calves make it into the Tried and True sale, so it is pretty amazing that El Primero has 88% of his bull calves in this sale! It is a really remarkable keep/cull ratio. This El Primero son is out of an Hefte Ranch D25 daughter who goes back to SR Isabella and AL Zeus. With a mix of old school show and modern carcass genetics, K48 is a really unique breeding piece for many different programs. Top 10% indices and five traits in the top 5%.

Five J's purchased this bull's dam at the 2021 Tried & True Sale when she was safe in calf to Hefte El Primero H04. The resulting calf has been a stand-out since birth. His dam combines KR 191/13 with Hefte Ranch A88, the dam of Hefte Ranch D25. A very stellar combination of genetics that produced a top tier herd sire. Take a look at this bull's indices and EPDs- top 4% WW and top 10% YW and REA!

This Hefte Ranch El Primero son makes us proud! He is very attractive phenotypically, he has plenty of breed character and he comes from a really solid cow line. We almost sold his dam a couple of years ago but we pulled her out of Tried & True due to an injury. Needless to say, we are sure glad that happened.. apparently she was meant to stay at Hefte Ranch. K85 has top 10% WW and YW, combined with top 3% REA. With this set of bloodlines, we think he will make some very pretty and productive replacement heifers.

Another really attractive El Primero son - seems to be a trend here! K63 is easy keeping, easy to handle and a very well- rounded bull. His dam is a half sib to the Hefte Ranch D25 bull that is now owned by Creech Farms and 5J's Beef & Cattle. K63 lines up so many of our top bloodlines, back to Red Doc Top Shelf, Red Doc 3162, AJH 126/0 and Hefte F14 Tomcat. He is out of a first calf heifer and has a 611 adj WW. As an El Primero son, he brings a very balanced and strong EPD set to the table with seven traits in the top 25%.

Another El Primero son out of a Hefte Ranch D25 daughter. This bull features line bred Briggs 039/5, a female that made a huge impact on our herd, with her last calf produced at age 17! She was one of the first cows we deemed qualified as a donor in our ET program and she is the grand-dam of F14 Tomcat. This bull features a really strong set of EPDs across the board, with top 4% REA and top 10% WW.

Its always great when Tried & True purchases come back and make Tried & True sale cattle. Ricky Curry called us and told us he had a bull calf we needed to come look at, and this little bull did not disappoint. We worked our way into a partnership on this bull and haven't looked back. Check out this Strait and Hefte bred bull because he's one you'll not want to miss. His dam is a perfect uddered donor for both Hefte and Lackey Ranches, she is also a half sib to Hefte Ranch F14 Tomcat.

Meat Wagon!! This moderate bull is about as thick and muscular as you can get while holding onto a structurally correct frame. Not to mention he is Hefte Ranch's highest marbling bull in the sale. You don't see too many bulls that look like he does with as much marbling as he has. If your wondering where it comes from just give us a call and we'll talk you through his pedigree. K90 is sired by Hefte Ranch G18, a KR 191/13 son and his dam, Hefte Ranch F75 hails from our high marbling B07 cow family - see Lot 112, Hefte Ranch K68, for more information on her. This bull scanned a 6%IMF with a 14.5" REA.

Here is a stout F82 son with loads of performance. His dam, Hefte Ranch B07, is an AJH 126/0 daughter with a 362 calving interval and 7 calves produced. We have kept every B07 daughter as a replacement in our herd, and we wish we had more of them! His maternal genetics relate back to Lot 110, Hefte Ranch K90. High quality carcass runs deep in those lines with these being the two highest marbling bulls in the sale for Hefte Ranch and yet still carrying plenty of growth. This bull scanned a 5.8%IMF with a 14.9" REA.

If this bull would stop acting so much like a bull and working the fence lines, he would be much fatter than what he is! K26 is full of libido and ready to breed cows and keep your herd rounded up. K26 is out of one of our prettiest cows, Hefte Ranch F45, who has a enviable 370 day calving interval with four calves produced. F14 Tomcat combined with Red Doc 3162 genetics gives this bull a very impressive set of EPDs and top 10% for all three indices.

K11 is a natural born calf of donor cow, Harris Guns Up 253F14, a female we purchased in partnership with Strait Ranches from Harris Farms. She has produced exceptional ET calves for both ranches. Her calves are loaded with fertility and growth. This dark red young herd sire is no exception. His sire is Hefte Ranch G18, a KR 191/13 son. Take a look at his balanced EPD profile with top 4% WW.

We call this El Primero son "The Duroc". Take a look at his lean, heavy muscling and you can see why! Despite his heavy muscling, this bull is very smooth in his movement. K62 would work well on some big boned females that need muscle shape added in. He scanned an impressive 5.2%IMF. He ranks top 4% for MARB, as well as top 10% for WW, YW and REA.

253/K2 is an ET son of the Harris 253F14 donor cow and sired by SR Marksman 33/19. We (Strait and Heft) purchased the pick of Harris Farms calf crop at the Houston Super Sale several years ago and selected the 253F14 heifer from a large group of heifers. 253F14 impresses us with her fertility and excellent calves. 253/K2 has 10 EPDs that rank in the Top 30% and has an excellent IMF ratio of 108.

This F14 Tomcat son out of a first calf heifer has incredible EPDs across the board. His dam, Hefte Ranch H28, combines our best bloodlines, KR 191/13 and our favorite cow, Hefte Ranch Z01. Z01's is a cow family that has dominated our herd's genetics. Fertility, longevity, beautiful udders, high marbling and easy fleshing ability are all attributes of the Z01 line. This bull scanned an outstanding 5.4%IMF with only .19 backfat. \*This bull did get injured at the beginning of the gain test and it set his performance and development back.

# Terms & Conditions

## BIDDING

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

## TERMS

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until Monday, October 23, 2023, whichever occurs sooner.

## CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each registered bull or registered female once proper settlement has been made.

## HEALTH

Health papers for interstate shipment within United States will be provided for all animals.

## ANNOUNCEMENTS

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

## BREEDING GUARANTEE

All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.

Any bull which either a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month trial (provided for in the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment" shall be considered a breeder. All partial interest bulls are guaranteed to produce freezable quality semen.

Safe in calf females have been examined by competent personnel and are so guaranteed. Exposed females have been exposed but are not guaranteed to be safe in calf. Open females have not been served and are so guaranteed.

## PREGNANCY DETERMINATION

The females in this sale noted safe in calf have been determined pregnant by physical palpation. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

## OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

The following adjustments do not preclude the right of the Purchaser and Seller to mutually agree upon other terms and conditions for settlement of any dispute. All claims for adjustment or refund must be made in writing either within six (6) months from the date of sale or no later than when the animal reaches 24 months of age, whichever occurs later, with the exception of claims involving parentage or defects. All returns or refunds will be paid in the form of a replacement animal of similar quality or in credit for use on any products marketed by the seller. a) This credit will be limited to the purchase price less the salvage value of the animal.

1) In the event an animal is claimed to be a non-breeder, the animal may be returned to the ranch of the Seller, at Purchaser's expense, if in good physical condition, and the return is in compliance with the health requirements of the Seller's state. The Seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months, the Seller is unable to prove the animal is a breeder, the seller shall, at the option of the Purchaser, replace the animal with another of similar value or grant the Purchaser a credit on any products marketed by Seller. Either of these options shall be deemed full satisfaction and settlement. If the Seller proves the animal to be a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expenses incurred for transportation. 2) If a registered female sold as "safe-in-calf" proves not to be in calf (by the projected due date listed in the catalog or sale day supplement), the Purchaser may receive service from the bull previously used, if available or if the bull is not available the Seller shall be obligated to credit or refund the Purchaser \$400. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe-in-calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to reimburse the Purchaser up to \$600

(adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). This does NOT apply to any female exposed to more than one bull via artificial insemination and/or natural service. Any expenses incurred for transportation shall be the responsibility of the Purchaser. 3) If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the ranch of the Seller prior to calving for a credit of the full purchase price or for another animal of similar value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

If a bull is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

## RIGHTS AND OBLIGATIONS

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.

## LIABILITY

All persons who attend this sale do so at their own risk. The owners or any other person connected with the sale assumes no liability, legal or otherwise.
