ARIES (March 21 to April 19) You might feel bolder as each new success falls into place. However, caution is still advised throughout the end of the

week. Taking it step-by-step is the best approach. **TAURUS (April 20 to May 20)** The cooperation that you request could come at too high of a

price. Since few can beat the Bovine at being clever and resourceful, why not see what you can do on your own? **GEMINI (May 21 to June**

20) Aspects favor a quieter time to get closer to the people who are especially important to you. There's always much more to learn and appreciate about each other. **CANCER (June 21 to July 22)** The concerned Crab will act to resolve workplace misunderstandings before they get out of hand and cause serious problems. Co-workers rally to support your efforts. **LEO (July 23 to August**

22) What the Big Cat might see as a disturbing act of disloyalty might just be a failure of communication on both sides. Take time for mediation rather than confrontation. **VIRGO (August 23 to September 22)** Be more patient with those who seem unwilling to accept your version of what's right. The fact is, there's a lot more to learn on all sides of this issue. **LIBRA (September 23 to October 22)** It should be

easier for you to assess the facts and make an important decision. But don't commit if you still have doubts. There could be more you need to know. **SCORPIO (October 23 to November 21)** Your excitement level remains high as you continue working on a new project. Expect some setbacks, but on the whole, all will move pretty much on schedule. **SAGITTARIUS (November 22 to December 21)** It might be wise to be more prudent with expenses right now. But your financial situation should soon clear up, and you could be back shopping as happily as ever. **CAPRICORN (December 22 to January 19)** You might prefer sticking with your current schedule, but some newly emerging information could persuade you to consider a change. Keep an open mind. **AQUARIUS (January 20 to February 18)** You might want to reject a suggested change, but it could be wise to go with the flow, at least for a while. You can always return to your first plan if you like. **PISCES (February 19 to March 20)** You're bolstered by both the practical and poetic sides of your nature as you maneuver some unsettled emotional situations. Things ease up by week's end. **BORN THIS WEEK:** People respond to your generosity and wisdom. They consider you a treasured and trusted friend.
