# INTRODUCTION

Driven by quality and innovative technology, Staid Lifesciences Pvt. Ltd. has succeeded in creating tremendous brand preference and customer loyalty in the domestic as well as overseas market.

We are a trusted name engaged in quality range. Our commitment to excellence and quality has shown us the way to growth. Always pioneering in providing the latest technology to the medical field we have always tried to incorporate the best brands to our profile. We offer to our clients a wide range of choices including Rapid Diagnostic Tests ,Bio Chemistry, Serology, Diagnostic Equipments , Surgical products and other healthcare products.

Further the consistency in our business has also enabled us to cater to the diverse requirements of hospitals, Nursing Homes, Path Labs, Chemists, Doctors and other similar establishments. Today the endorsement of our products by the medical fraternity is a perfect showcase of our product's precision, safety and meticulous performance standards.

# OUR VISION

Staid Lifesciences Pvt. Ltd was founded with a vision to create a Diagnostic and Healthcare business which was both agile and creative. A business which could commercialise innovations in all channels.

Our ambition is to grow our own commercial structures in Asia and to accelerate our global expansion through strong and sustainable partnerships. We are actively seeking new value-adding products in our field of expertise.

## Caredwell Malaria pf/pv Rapid Test

Caredwell Malaria pf/pv Rapid Test is a visual, rapid and sensitive immunoassay for the qualitative differential detection of *P.falciparum* (HRP-2) and *P.vivax* (pLDH) malaria antigen in human blood only.

## Caredwell Malaria pf/pan Rapid Test

Caredwell Malaria pf/pan Rapid Test is a rapid, visual and sensitive immunoassay for the qualitative diagnosis of all four *Plasmodium* species. (*P.falciparum*/*P.vivax*/*P.malariae*/*P.ovale*) based on pLDH antigen in human whole blood only.

## Caredwell Typhoid IgM and IgG Card

Caredwell Typhoid IgM and IgG Card is a rapid solid phase immuno-chromatographic test for the qualitative differential and simultaneous detection of *Salmonella Typhi* (*S. typhi*) IgM and IgG antibodies in human serum/plasma. This test is intended as an aid in early diagnosis of typhoid infection and in the determination of recent and past infection.

## Caredwell HIV Rapid Test

Caredwell HIV Rapid Test is a visual, rapid, sensitive and accurate immunoassay for the differential detection of HIV-1 & HIV-2 antibodies (IgG, IgM & IgA) in human serum or plasma using HIV-1 and HIV-2 Antigens immobilized on an immune-filtration membrane. The test is a screening test for Anti HIV-1 and HIV-2 and is for in vitro diagnostic use only.

## Caredwell HBsAg Rapid Test

Caredwell HBsAg Rapid test is visual, rapid, sensitive and accurate one step immunoassay for the qualitative detection of Hepatitis B surface antigen (HBsAg) in Human serum or plasma. The assay is intended to be used as an aid in the recognition and diagnosis of acute infections and chronic infectious carriers of the Hepatitis B Virus (HBV).

## Caredwell HCV Antibody Rapid Test

Caredwell HCV Antibody Rapid Test is a sandwich lateral flow chromatographic immunoassay for the qualitative detection of antibodies (IgG, IgM, and IgA) anti-Hepatitis C Virus (HCV) in human serum, plasma or whole blood. It is intended to be used as a screening test and as an aid in the diagnosis of infection with HCV.

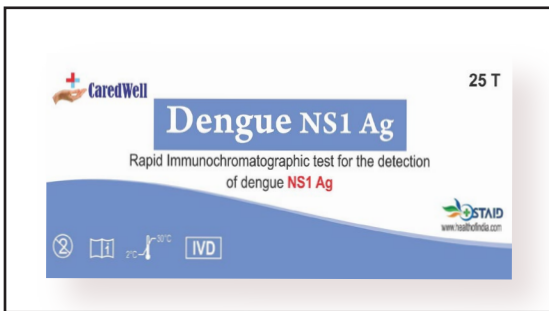

## Caredwell Syphilis Antibody Rapid Test

Caredwell Syphilis Antibody Rapid Test is a rapid, serological, immunochromatographic assay for the qualitative detection of antibodies (IgG, IgM and IgA) to *Treponema pallidum* (TP) in human serum, plasma or whole blood. It is intended to be used as a screening test and as an aid in the diagnosis of infection with TP.

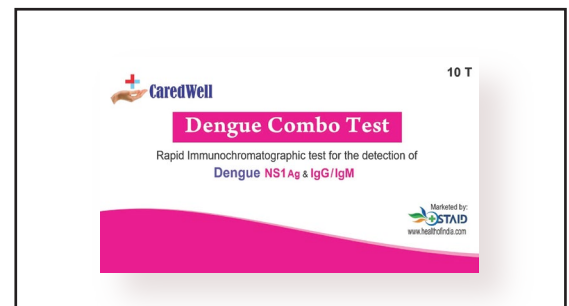

## Caredwell Dengue NS1 Ag Card

Caredwell Dengue NS1 Ag card is a rapid solid phase Immuno-chromatographic test for the qualitative detection of Dengue NS1 Antigen in Human serum /Plasma. This test is for in vitro diagnostic use only and is intended as an aid in the earlier diagnosis of Dengue Infection.

## Caredwell Dengue Combo Rapid Test

Caredwell Dengue Combo Rapid test is an immunochromatographic assay for the detection of NS1 antigen and Dengue virus-specific IgM and IgG antibodies in human serum, plasma and whole blood. By detecting the NS1 antigen, not only the initial infection can be detected, but also Dengue virus-specific IgM and IgG can be detected at the same time. Screening test results can be obtained within 15 minutes with high sensitivity and specificity.

## Caredwell Uristix 2 Parameter

Caredwell Uristix 2 Parameter ( Glucose & Protein ) is a dip and read Invitro diagnostic test. This provide an Important screening and diagnostic tool to detect and manage a wide range of disorders such as Urinary tract infection, kidney disease and diabetes.

## Congratulations One Step Pregnancy Test

Congratulations One Step Pregnancy Test is a rapid chromatographic immunoassay for the qualitative detection of human chorionic gonadotropin in urine or serum to aid in the early detection of pregnancy.

## Staid Digital Thermometer

Staid Digital Thermometer is for home and personal use to check your fever anytime and anywhere. It comes with LCD display for comfortable reading and Auto ON/OFF technology for longer battery life with buzz/beep sound.

## Staid Digital BP Monitor

Staid Digital BP Monitor is an Intelligent automatic upper arm Blood Pressure measuring device with large screen, memory storage and Indicator.
