	# of Programs That Set a Goal	145		133				
Average Time Spent with the Program	1.40 hr		1.64 hr					
# of Programs that met their goal, report at year end								
Barriers Encountered	<p>Staff turnover in centers is still a challenge for some centers especially some of the newer centers. Staff coming into these programs are less knowledgeable about child development and quality practices. Growing higher expectations and needs for overall system supports, like quality pay/benefits. Staff and programs are needing more/various kinds of support than before. Consultants are trying to help support needs. Director turn over and retention: Finding ways to stay connected with our Lic. CC programs and getting them connected to each other. A in person BH Directors meeting was held in Nov.</p>							
	<p>A very successful meeting was held in Nov. with BH Directors from Licensed Child Care programs, 22</p>							

Success Stories	<p>attended. Becky Frost HHS Licensing staff working with all the BH programs and was invited to share some tips and info. Directors asked her questions and also networked, a light lunch was provided which created a professional atmosphere as we know Directors were coming from their busy center and taking time away. Directors that wanted each others contact info was shared out. This was done in hopes of Directors building their own connections in the future. We want to continue to plan on having a meeting like this at least 1-2 times a year with Directors and Becky Frost face to face.</p> <p>CVP funding helped support getting some car seats for a Registered home provider to help transport kids in their care safely. A BH Child Care Consultant is also a certified a Car Seat Technician and provided education along with fitting of seats.</p> <p>BH Consultants continue to help support providers with training needs and I-P support, info on becoming registered and maintaining their registration and lic standards. Continued support for programs applying and submitting correct info for their IQ4K Training Reimbursement Grant.</p> <p>Consultants worked with 7 providers with a CNET grant & 4 providers with new start up grant. CCR&R Regional staff also provided TA and helped support BH providers in collaboration with BH CCR&R Consultants.</p>
