

The Dixon's Digest February 2018 Edition

DON'T MISS IT!

The 2018 poultry meeting will be held on March 3rd from 1-3 pm at Tasty Sweets in West Lorne, ON

This is a meeting that you won't want to miss if you have an interest in, or are currently raising chickens, ducks, turkeys or the like. Our goal is to bring like minds together to discuss strategies for success. Of course with success, comes challenges and we feel this will be a great opportunity for you to ask questions, share knowledge and grow together in our attempt to bring poultry raisers together to help one another. We would also like to take this opportunity to announce the special guest speakers that will be attending.

Doctor of Veterinarian medicine, Stan Henderson and Dick Nieuwland, Nutritionalist will be there to share their knowledge and answer questions.

We here at Dixon's feel that this meeting will be a great opportunity to grow together and we look forward to seeing you there.

Please RSVP to debbie.hope@dixonsfeed.ca by February 17
SPACE IS LIMITED

FROM THE DESK OF DEB

This month we are featuring Norman's Naturals dog food made by Bio-Ag Consultants & Distributors Inc. in Wellesley Ontario.

We also carry Northern dog biscuits made in Concord Ontario, and Amelia dog biscuits made in Paris Ontario.

The common theme here is Ontario (LOCAL). Our mission is to acquire more pet treats and pet foods made with better quality ingredients and produced locally.

You can research these companies and... their products, on-line.

Better quality ingredients means better digestibility, reducing the amount of food that is needed to fuel your pet, which, in turn leads to less messes to clean up.

Better quality means, less skin irritations, better coat quality, reduces hot spots (that can be a sign of allergies.)

I love hearing how a customer switched to a better quality pet food and saw the improvements along with a much more comfortable and happier pet.

This goes for treats as well. Read the ingredients on the treat and cookie bag. You may be feeding a great pet food, but supplementing with a poor quality treat

This can still cause problems for your pet even in small amounts.

We love to hear your success stories.

Debbie

We are pleased to feature again: Aldred Maple Products!

Aldred Maple Products is a family owned business producing Pure Ontario Maple Syrup. They locally started production in 2017.

Having originally produced syrup for many years for their own use and a few friends, they then decided to expand.

With the purchase of an evaporator, construction of a new building and installation of lines in the bush with a vacuum system, production began! Their first year being a learning process and not the best year weather wise, was still successful with product sold out in November.

They are currently expanding with the intentions of having locally produced Maple Syrup available for many years!

Located at 15677 Dunborough Road

NORMAN'S NATURALS

Norman's Naturals Chicken and Rice dog food is a healthy choice for your dog.
