

## ENVIROMENTAL POLICY

Grade 1 Steel Erectors LTD is a specialist metalwork company that undertakes various contracts within the metalwork and construction industry

We recognise that our activities have an impact on the environment and neighbors in terms of the use of raw materials, emissions to the air, noise and waste generation, because of this we aim to minimise this as far as is reasonably practicable.

Grade 1 Steel Erectors Ltd is committed to:

- Continual improvement in its environmental performance
- Dealing with complaints and issues swiftly and efficiently
- Preventing pollution
- Compliance with all environmental legislation, regulations and codes of practice relevant to the industry sector in which it operates.
- It is our policy to:
  - Make efficient use of natural resources by conserving energy and water, minimising waste, and recycling as much material as we are able.
  - Meet its duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste.
  - Where possible, order materials from ISO14001 accredited suppliers.
  - Use recycled construction materials whenever these can be commercially justified
  - Keep transport use to a minimum and regularly service vehicles to maintain their efficiency.
  - Work with suppliers to ensure they recognise and reduce the environmental impact of their products and transportation. We will review this policy on annual basis, taking account of any changes within legislation and our situation and other factors. We will communicate this policy to all our employees and ensure that they are given appropriate training to raise awareness of environmental issues. We will make this policy available when requested to interested parties including members of the public.
