Our First Year In the USA

Makefast USA's first year in Preston, Maryland has been an unmitigated success. Our sunroof and awning sales and service operations have been warmly welcomed by our US-based clients, and we are proud to showcase the complete Makefast Group product line.

Throughout the previous year, we had the pleasure of serving numerous customers, and we look forward to expanding our reach even further in the future.

We are excited to announce the expansion of our warranty package for our marine systems, beginning with the Sun awning system. This recent development highlights our unwavering commitment to delivering exceptional service and support to our esteemed customers.

Furthermore, the Makefast Service website provides access to a growing network of highly skilled service technicians located across the globe, providing our customers with valuable support.

We would like to express our gratitude for your patronage and look forward to the potential for continued collaboration, on your future projects.

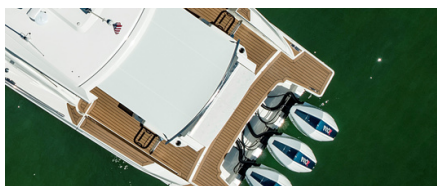

SUN AWNINGS

The Makefast USA Sun Awning offers an excellent way to create a shaded area that protects you from direct sunlight, making it ideal for outdoor entertainment or enjoying the scenic view.

It's a versatile option that can be mounted effortlessly on any deck, regardless of boat size.

What distinguishes the Makefast USA Sun Awning from other options is its subtle design, utilising a near silent motor.

The awning system has a low-profile and retracts fully within the structure of the boat, remaining hidden from view.

CANVAS SUNROOF

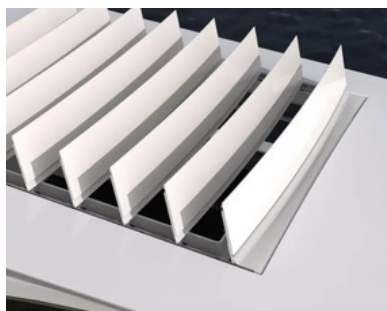

The Makefast USA canvas roof system is expertly designed to provide full coverage for both cabin and flybridge boats. As a prominent industry leader for more than two decades, it has gained a reputation for its highly efficient and low-maintenance operation, making it a superb choice for any watercraft.

Crafted from the finest quality materials, the Makefast USA canvas roof system can withstand even the most extreme marine environments. The inclusion of friction-free cars and marine-grade 316 stainless steel components ensures its smooth operation, providing a luxurious and stylish aesthetic.

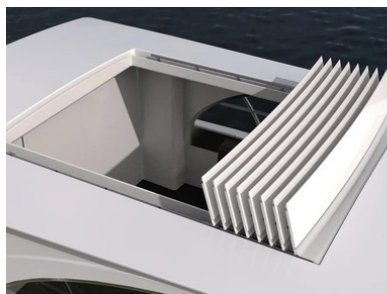

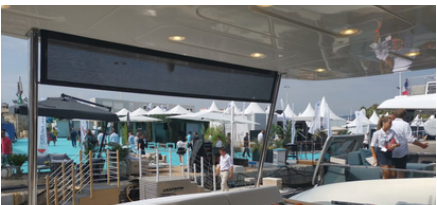

LOUVRE ROOF

The Makefast USA Louvre Sunroof system is the epitome of high-quality, featuring rotating and retracting louvres within a single roof. This unique feature provides a choice of shade and ventilation styles.

The louvres can be fully retracted to create an open area, or left in the vented position to allow a free-flowing breeze and dappled shade. This latest addition to our range incorporates industry-leading technology, making it a top-of-the-line choice for any marine vessel.

Roller Blinds

08

The Makefast USA roller blind offers a vertically retractable shading option that also allows for space definition. Its versatility makes it available in both manual and powered variations, catering to different applications.

The powered system provides the user with the convenience of stopping the blind at any point along its drop.

On the other hand, the manual system utilizes spring tensioning to retract automatically from being fully extended or stop at specific positions using the self-locking system.

PANEL ROOF

The lift and slide roof is a sophisticated and stylish design that vastly expands the cabin space, allowing for greater air circulation and ventilation.

The system incorporates a controlled locking and sealing mechanism that enhances climate control, ensuring a consistent and comfortable temperature within the living quarters.

Furthermore, the sliding panel system integrated into the Makefast panel roof range offers a versatile solution for boat builders and designers seeking to incorporate a sunroof into boats of any style, even those with complex curves and modern, sleek designs.

SAIL SHADES

Makefast USA's Shade Sail systems and accompanying hardware provide an optimal solution for fitting shade on your watercraft.

Our selection of carbon poles and stainless steel deck hardware offers both aesthetic appeal and ease-of-use.

Our product range is designed to cater to a wide variety of design requirements, ensuring that we can provide solutions tailored to meet the diverse needs of our customers.

We are pleased to announce that our shade kits are now available to all OEM Boat Builders and Dealerships.

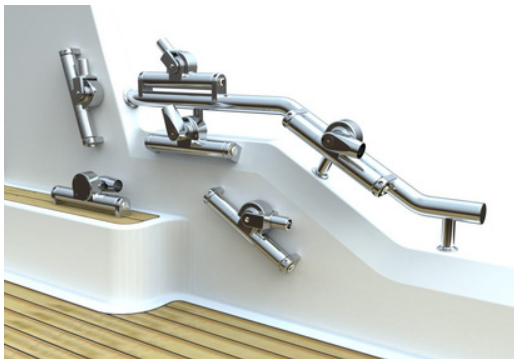

HYDRAULIC UNIT

The Makefast USA Hydraulic Rotary Actuator is a refined, adaptable operating system, well-suited to powered bimini systems, anchor handlers, and bathing or swim platforms, among other applications.

Crafted from top-quality 316 marine-grade stainless steel, the actuator boasts a highly-polished finish and comes with a compact hydraulic powerpack that can be discreetly mounted within the boat's structure.

These powerful units are user-friendly and can be operated with the simple push of a button. Available in three sizes, they offer versatility and reliability in a compact package.

Bimini Hydraulic Unit

- Perfect for effortless opening and closing of large bimini frames.
- Available in three sizes to suit 1 ¼", 1 ½", and 2" tube.
- Side mounted socket and inline yoke fitting available in all tube diameters.
- Range of mounting options and accompanying hardware available.

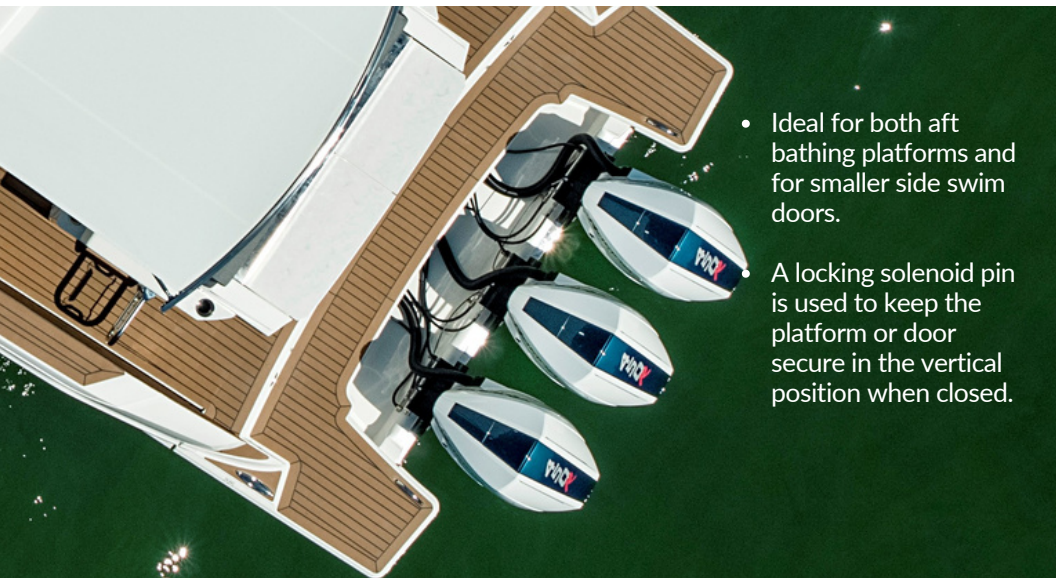

Anchor handler unit

- Anchor and bow-roller mechanism mounts below deck in the anchor locker and effortlessly extends beyond the bow at the touch of a button. The anchor handler can be integrated easily into a fully automated anchor system.
- The robust design can accommodate many different anchor types, the standard design is suitable for a 20KG Delta anchor.
- The anchor is retained with a manually applied locking pin for user-safety.

BATHING / SWIM PLATFORM

12

- Ideal for both aft bathing platforms and for smaller side swim doors.

A locking solenoid pin is used to keep the platform or door secure in the vertical position when closed.

We are pleased to announce the release of our new safety line system, which perfectly complements our bathing platform system.

The system includes flush-mounted bases, removable lightweight carbon poles, and a high-strength Dyneema cord lifeline.

This elegantly designed system not only enhances the aesthetic of your watercraft but also ensures safety on board.

SPOTLIGHT

PEARL 72

13

Introducing the Pearl 72:

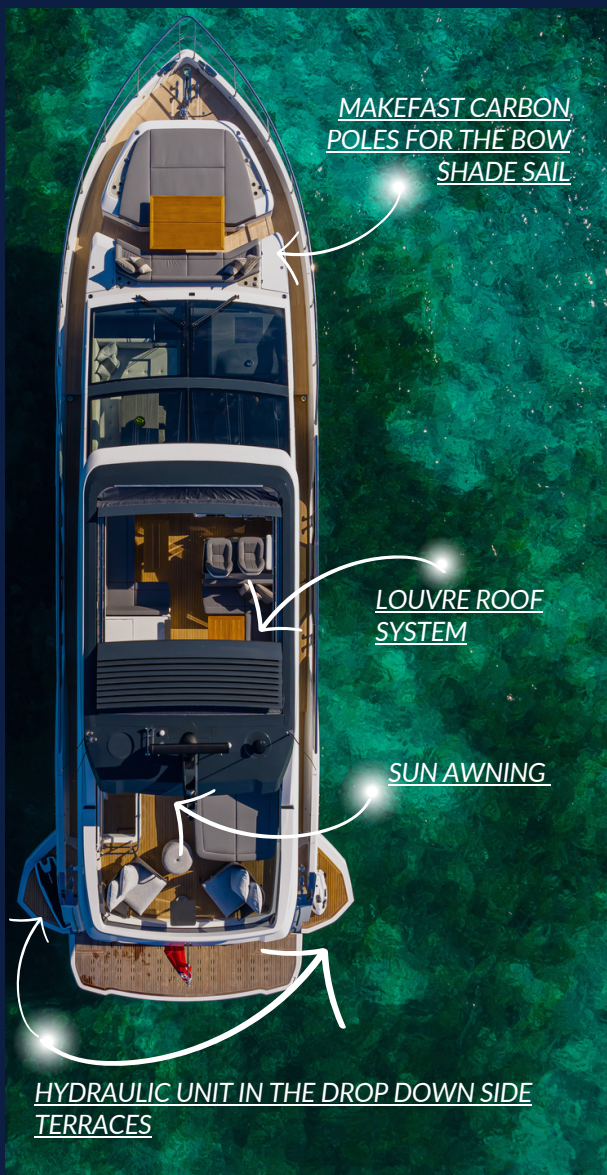

A New Addition to the World of Yachting

Pearl Yachts, the renowned British boutique boatbuilder, has recently launched its latest offering – the Pearl 72 yacht.

The first Pearl 72 off the production line made its debut at the Fort Lauderdale International Boat Show in 2022, showcasing four impressive Makefast Group Systems. Among these, the Louvred Roof stands out as a remarkable addition to the market.

The drop-down side terraces featuring the Makefast Hydraulic unit, Sun Awning and Sail Shade, with our Carbon Poles round out the Makefast Marine contribution to this stunning yacht.

The Pearl 72 is a stunning yacht that sets itself apart with its unique features, spacious layout, and impressive amenities. It's no wonder it is getting so much attention!

The Pearl 72 Fast Cruiser underwent a critical review by Howard Walker on behalf of the Robb Report, who was thoroughly impressed with the vessel's features. According to Walker, the Makefast Marine Louvre Sunroof was a standout feature, describing it as "really cool ."

INTRODUCING: EXTENDED WARRANTIES

A comprehensive Extended warranty service offering a potential of 60 months warranty on Makefast USA Sun awning systems is available for boat builders and boat dealerships to purchase.

- Extended warranties are aimed at both boat builders and dealerships.
- Extended warranties are purchased directly from Makefast USA (not via Makefast distributors).
- Extended warranties are available for 12, 24, or 36-month periods.
- Extended warranties cover component parts of the original Makefast product against defective materials or workmanship when serviced by Makefast Ltd personnel or Makefast Ltd certified technicians.
