Enclosed Blinds Color Collection

The colors of your entry door blinds will always coordinate with your décor.

Choose from these four colors:

Espresso

Sand

Silver Moon

Slate Gray

Enclosed Blinds Features:

The new colors are offered with Low E + glass and can meet Energy Star requirements when used with an Energy Star qualified door.

Light and Privacy Control

You can close your blinds for complete privacy and security or open them up to enjoy the outdoors—and every level in between. The levels of light and privacy are yours to control using our easy operator. The full privacy channels eliminate light gaps, shadows, and sunlight glare.

Low Maintenance

Since our blinds are enclosed between two panels of glass, you never need to dust, which decreases allergens. Even with repeated use, our Enclosed Blinds retain their new look, unlike exposed blinds that can become bent or tangled over time.

Safety

Leading the industry in enclosed blinds that reduce the safety risk for children and pets, our Enclosed Blinds do not have dangling cords. Our Blinds have received two certifications.

WCMA's "Certified Best for Kids" designation and Parents for Window Blind Safety (PWBS) Seal of Approval.

Easy to Operate

The ergonomically placed single* operator lets you tilt, raise and lower your blinds the entire length of the doorglass with only the slightest movement. No reaching or stooping is needed to adjust the blinds.

Due to the size and weight of the blinds, the 80" sizes have a dual operator that controls the raise, lower and tilt function.
