

SUPPLEMENT TO CURRICULUM VITA

Significant Accomplishments

Program Development, Implementation, Instruction and Coaching

- Selected as one of only three \$450,000 Vocational Pilot Projects in the State of Vermont
- Created the Randolph Regional School- to- Work Consortium and assisted it in receiving its planning grant and its first year implementation grant.
- Implemented a Curriculum, Assessment and Reporting system that is Vermont Standards based.
- Principal of a 300-student school with 43 teachers and support staff.
- Teach students from pre-school through adults in 1on1, classroom and seminar settings of 9 to150 people.
- Founding board member and chair of the Hartford Teen Center now Boys and Girls Club of the White River Valley Hartford Unit.
- Brought Lee Canter Associates "Assertive Discipline" program to Randolph.
- Completed the 1994 Track season, at Hartford, by coaching the Boys team to its 1st ever State Championship.
- Have also developed and coached numerous sports programs for high school students. Successfully coached winning team to Five State Titles in football, back-to-back (1989-92).
- Received NATEF (ASE) certification for automotive technician training program (only Master Certified program in the state).
- Brought Automotive Technology Program from half to full time in one year.
- Designed Model Cities Directors' Training Program which dealt primarily with non-profit fiscal management; federal, state and municipal financial record keeping systems; program documentation. Implemented and taught this program to over 31 agencies with over 351 employees; evaluated and monitored all projects (over 25).

Industry Partnerships & Fundraising

- Was instrumental in the formation of the Randolph Region Workforce Investment Board
- Successfully prospected employers for student work experiences.
- Initiated contacts and obtained local, state and national sponsors for automotive technology program (including Ford, GM, Chrysler and Toyota). Obtained cash, equipment and material donations of over \$300,000 in six year period. Received new car donations annually.
- Was one of only two high schools in the United States chosen to be included in the Toyota Training Network.
- Wrote and was awarded grants to acquire computers, classroom aids and functional models (\$1500), a computerized diagnostic lab scope (\$6000), and an auto air conditioning recycling center.
- Taught ages 12 through adult in vocational programs and summer camps (8 years experience).
- Worked extensively with the department of corrections in developing special programs, writing grants and teaching students and instructors.
