Harnessing the Power of Natural Renewal

The formula of TrueRenew is designed with all skin types in mind—even sensitive skin. Based on the science of renewal, it restores and revitalizes a vibrant look. Upcycled **cranberry biopeptides** provide retinol-like benefits without the harsh side effects to minimize the appearance of fine lines and wrinkles and help skin look firmer and smoother. **Shrubby everlasting** visibly firms, lifts, and rejuvenates to enhance radiance. **Wild pansy** hydrates and supports a resilient moisture barrier to smooth and plump the skin. The **proprietary Nrf2 antioxidant blend** includes green tea, milk thistle, turmeric, bacopa, and black pepper to help combat the visible effects of oxidative stress and maintain naturally healthy-looking skin.

Did You Know?

- Unlike many types of retinols, which may not support skin's cellular health, or bakuchiol that's sourced from an endangered plant species, cranberry biopeptides are kind to your skin and the planet because they're responsibly sourced through extraction from upcycled cranberries.
- Cranberry biopeptides have powerful antioxidant properties, helping to neutralize free radicals that cause the look of premature skin aging.
- Upcycled cranberry helps improve skin elasticity and reduce the appearance of fine lines and wrinkles.
- Wild pansy supports the skin's natural barrier function, helping to lock in moisture and keep your skin looking plump and supple.

Directions

Apply to fingertips and tap into face, neck, and décolletage before smoothing in light upward strokes until fully absorbed. Use morning and night.

WARNINGS: For external use only. Prior to first use, test on your wrist to check skin compatibility. If irritation occurs, discontinue use. Avoid direct contact with eyes. If eye contact occurs, flush gently and thoroughly with water. Use only as directed.
