

Go Shred are committed to excellence in customer service and to also ensure we provide the best pricing to our clients. To do this, we provide our customers the opportunity to feed back to us their thoughts on this and on a range of complimentary subjects. This takes the form of our annual Quality Management Survey, the results of which we provide below. We run this survey each year and welcome individual approaches from our clients to further enhance their experience of working with Go Shred and we would like to take this opportunity to thank all those who responded.

**How likely is it that you would recommend Go Shred to a friend or colleague?**

We use the proven Net promoter score method

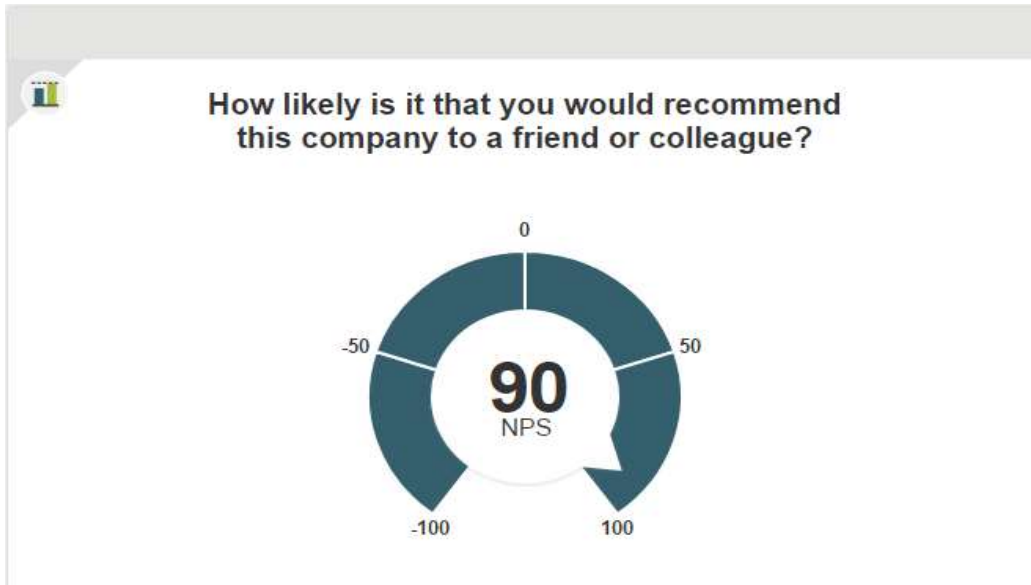

NPS is a highly regarded loyalty metric that people use to collect the customer feedback they need to inform their business strategy. It's seen by many as a better indicator of customer loyalty than traditional customer satisfaction surveys.

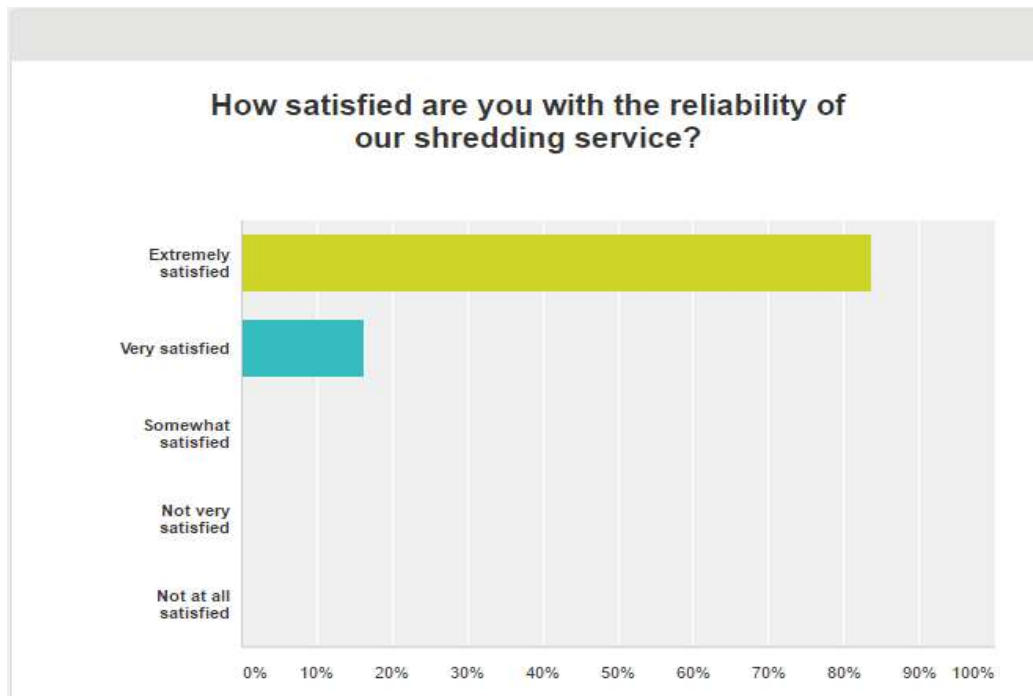

The answers customers provide are classified as follows:

- 0–6 = Detractors—unhappy customers, prepared to use negative word-of-mouth
- 7–8 = Passives—satisfied but indifferent customers who may switch service providers
- 9–10 = Promoters—loyal customers who will keep buying and referring others to your brand
