Testimonial In Support Of Stuart Lee & SLA Property Maintenance

I was lucky enough to meet Stuart at the start of this year when I was undertaking a substantial renovation on one of my own properties.

I found Stuart to be very pleasant to deal with and I was very impressed by how punctual he was, a trait not always associated with tradesmen.

Stuart took the time to discuss my ideas and offered feedback as to how the plan could be improved and how I could save money, again another trait not always associated with tradesmen.

Stuart preformed all number of tasks for me including two full kitchen installs and many maintenance types jobs throughout the project. Stu was kind enough to fulfil a project management type role for me when my renovation was well behind schedule and I had to go overseas. Stuart managed to keep all the contractors to a tight timeline and had the project complete by the time I returned. This was no small feat and I am very grateful for the hard work he put in over this time.

All the things Stuart has done for me have been carried out with skilful care and a real customer focus.

I was so impressed with Stu that I have recommended him to several clients in a professional capacity to help get their properties market ready. All of my clients have been 100% happy with Stuarts work and the things he has done for them.

Stuart completes his work on time, on budget and to a very high standard.

I have no hesitation in endorsing Stu's professional credentials and would welcome anyone to contact me directly if they wish to discuss my experience with Stu and SLA Property Maintenance further.

Yours sincerely
