

STUART MARTIN

PERSONAL PROFILE

I have recently submitted my PhD looking into “Integrating Natural Capital Accounting Frameworks into Agricultural Decision making” undertaken Institute for Sustainable Futures (UTS – Sydney) and in conjunction the Food Agility CRC. I’m dedicated to developing strategies around sustainability and natural capital to deliver measurable impact through a transdisciplinary approach. This includes the application of robust measurement tools to deliver reliable data to support decision making.

SKILL HIGHLIGHTS

Natural Capital – Undertaken a PhD through UTS-Institute for Sustainable Futures and in conjunction with the Food Agility CRC, examining Natural Capital Accounting in Agricultural Decision Making Completed. I also hold a Master of Sustainability from UNE.

Innovation – Established Open Resolve Funds Management Pty Limited, a Funds Management platform with a focus on sustainable outcomes and enhancing natural capital in agriculture. The aim to implement regenerative land management practices that address issues of land degradation and improving biodiversity resulting in enhanced productivity and profitability through implementation of new management practices that includes Soil Carbon generation.

Research – Extensive education background that includes completing my PhD for submission in late December 2022. Headed two investment banking research teams focused on the real estate sector. Delivered innovative and timely research for investment clients and investment banking teams alongside numerous sectoral presentations to industry peers in Australia and Europe.

Leadership – Established new business operations, managed large investment portfolios successfully delivering real property outcomes. This was achieved through strong leadership to ensure performance targets were met and were delivered on time and to budget.

Business Establishment - Established group divisions at both Aspen Group and First State Investments. Established Open Resolve Funds Management Pty Limited which included being issued an Australian Financial Services Licence
