

PROFESSIONAL PIPE FINISHING SYSTEMS

KING-BOA™

LET THE KING-BOA DO THE WORK FOR YOU!

Fast, efficient and uniform blending and finishing on round handrails and pipe up to 5" dia.

Wraps around the workpiece 270° - rotate slightly for 360° all-around finish

Increase productivity and reduce fatigue – ergonomic design and optimal belt tension requires minimal user pressure

Planetary gearbox engineered for 50% more torque

**Blend, finish and polish up to a mirror finish
For use on all metal handrails, railing, tubing and pipe**

For more information, visit csunitec.com/PIPE-FINISHING

PIPE-MAX

Follow contours to grind and polish pipes and railings up to a high-gloss finish

1 Gas pressure cylinder allows belt to conform to contour of pipe with proper pressure.

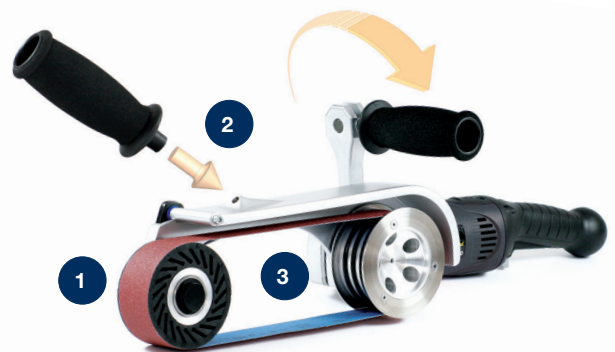

2 Additional handle for comfortable, overhead working.

3 The drive roller with the rubber rings ensures that the grinding belts will not slip.

The soft grinding roller made of PUR material also allows comfortable longitudinal grinding of flat surfaces

- Powerful 15 Amp motor & variable-speed control from 950 to 3500 RPM
- Speed control with Tachogenerator to maintain RPM even under load. **No waves or streaks!**
- Quick and easy changing of abrasive belts
- Ideal for stainless steel, aluminum and a wide range of metals

ABRASIVES & ACCESORIES

Abrasive Belts Fit Both Pipe-Max, King-Boa™ & Gladius®

Abrasive Grinding Belts

10 Belts per package

Grit	Part No.	Grit	Part No.
24	38523	60	38526
40	38524	80	38528
50	38525	120	38529

Surface Conditioning Fleece Belts

4 Belts per package

Grit	Part No.
Coarse (brown)	38531
Medium (red)	38532
Fine (blue)	38533
Superfine (grey)	38534

SuperPolish Belt

4 Belts per package
Part No. 38850

Ceramic Grinding Belts

10 Belts per package

Grit	Part No.	Grit	Part No.
24	38124	60	38160
36	38136	80	38180
40	38520	100	38100

TZ Pyramid Belts

10 Belts per package

Grit	Part No.	Grit	Part No.
A100/220	38544	A30/600	38547
A65/320	38545	A16/1200	38548
A45/400	38546		

Polishing Compounds

PTX Pre-grinding & Polishing Compound
Essential for polishing all metals.

PTX WHITE pre-polishing (23 oz.) – Part No. 40013

PTX BLUE finishing (23 oz.) – Part No. 40014

PTX WHITE and BLUE min (approx 4.2 oz. ea.) – Part No. 40009

PTX Polishing Cream, Pink

High reflective finishing – perfect mirror finish on stainless steel and nonferrous metals. Use with SuperPolish Belt.

Miniature tube (2 oz.) – Part No. 40015T

Can (2.2 lbs.) – Part No. 40015

PTX Brightex® Softclean Powder (non-caustic)
Remove cream and compound residues.

Microfiber cloths, 25 qty. (13" x 14") – Part No. 40031

Aluminum scatter container w/ Brightex® (approx. 7oz.)

– Part No. 40029 **Bag** (2.2 lbs.) – Part No. 40028

Cleaners/Sealants also available

Brilliance-Clean

Streak- and residue-free cleaning

POLY Protection (oil film)

Clean and preserve finished and polished metal surfaces.

INOX-Protect

(hard sealant)
Protect finished/ polished metal surfaces.

GLADIUS® 1800 Multifunctional Grinder

Ideal for hard-to-reach areas such as corners, angles and tight spaces.

- Grind, deburr, blend and polish ferrous and nonferrous metals, wood and plastic
- Infinitely adjustable speed control from 1000 to 3800 RPM
- Tachogenerator provides constant speed, even under load
- Innovative design allows use of the full length of both sides of the arm for smooth grinding, blending and polishing
- Integrated dust extraction port

Additional Finishing Systems Available For Linear, Rotary & More:
