

Why Use *Saint Saver*[™] Washer Racks?

You have to love it when doing the right thing is also the easiest!

Economy

Churches save money using washable communion cups. The cost of washing them (electricity, water and detergent) is less than the cost of using throwaway cups (which includes buying extra garbage bags for their disposal, time to manage inventory and wasteful use of storage space).

Convenience

Overall, using glass communion cups with the aid of Saint Saver[™] Washer Racks is easier than using throwaways.

Environment

Using glass helps to reduce a church's environmental footprint.

Cup Availability

Although not a common occurrence, interruptions to the supply chain do occur. By using glass, cup availability is never a concern.

Space Savings

Saint Saver[™] Washer Racks stack for compact storage and require much less space than big boxes of plastic cups.

Sanctity

Glass cups are sturdy and befitting the sacrament of communion.

Flexibility

Saint Saver[™] Washer Racks work well in commercial and residential style dishwashers. It is easy, safe and reasonable for a volunteer to take communion cups home for washing if needed.

Sanitation

By washing your communion cups in the dishwasher, you can always be confident they are as clean as possible.

Satisfaction

If you are ever dissatisfied with your purchase; you may return your Saint Saver[™] Washer Racks for a complete refund. Too Good Products Company will even pay for return shipping if the return is made within 60 days of receiving your order.

Lifetime Warranty

Too Good Products Company will repair or replace any Saint Saver[™] Washer Rack that becomes unusable due to normal use.
