

Brilliant Displays from 19" to 27"

The clear glass touchscreens with Elo's industry-leading TouchPro® PCAP technology offers wide viewing angles with impeccable image clarity, resolution, and light transmission for accurate touch response and vivid images. With up to 10 touches enabled, the 03-Series monitors provide a tablet-like experience.

Integrated Touch

Elo's industry-leading PCAP touchscreen technology with a 10-touch tablet-like experience.

IP-54 Rating

The touch monitor is sealed against dirt, dust and liquids, which simplifies integration.

IEC 60601

Elo healthcare-grade monitors include a special power supply that is IEC 60601 compliant.

Built-to-Last

Our touchscreen monitors deliver the quality and reliability Elo is known for, and are backed by our 3-year warranty. We design and build the complete solution, with touch integrated from the start.

Well-Suited For

The 03-Series Touchscreen Monitors offer flexibility for installation in a variety of healthcare environments - from exam rooms and lab clinics to patient check-in and pharmacy check out. Whether you need a touchscreen at a nurses station to enable support of direct or indirect patient care or as a directory to help patients and visitors get around the healthcare facility, the line of 03-Series monitors can support increased communication between patients and healthcare providers.*

Directory

Lab Clinic

Pharmacy

*Although not FDA approved as medical devices, the 03-Series Touchscreen Monitors are offered and intended for use in many applications as touchscreen monitors in healthcare environments.

Built to Work With You

From handles to move your display with ease to privacy screens to protect patient information, Elo's 03-Series monitors are compatible with a large set of purpose-built accessories for healthcare applications.

1

Get a handle on it

Some healthcare applications require a display with flexibility of movement to support the appointment with a patient. With handles connected to the monitor, a physician can easily move the display to a comfortable orientation.

2

Privacy Matters

Optional privacy screen provides a physical safeguard for private health information or sensitive administrative data. Whether you are a physician or a patient, privacy matters.

3

Mount with Flexibility

Delivering a seamless patient care experience from check-in to check-out is important, so placement matters. The monitors can be mounted on a stand or any mount compatible with VESA configuration - allowing integrators to meet the requirements demanded by healthcare providers.

The Elo Advantage

Global Reach

Elo products are distributed and available across the globe. Every 21 seconds, an Elo touch screen is installed somewhere in the world.

Long Life Cycle

We do everything in our power to minimize design changes and we have kept some monitors available to order for over seven years.

Customization

Elo offers customized solutions with everything from slight modifications to ground up designs. If you need something customized.

Built-to-Last

The 03-Series Touchscreen Monitors for Healthcare deliver the quality and reliability Elo is known for and are backed by our 3-year standard warranty with an optional extension to 5-years. We design, build and are responsible for the complete solution, with touch integrated from the start.
