

23" SELF ORDER KIOSK

Designed for your digital signage application

PALMER DIGITAL GROUP
Manufactured Kiosk Solutions
A Division of IEC

QSR SO-23

The PDG QSR SO-23 is a self-order kiosk designed specifically for the QSR industry. Implementing this solution in your stores allows customers to have a faster, easier and more convenient alternative to long checkout lanes and can also increase your product flow. This also gives your customers more control over custom ordered food items.

This self-order kiosk is content and POS software agnostic. It can be used with any POS platform. It can also come with ai software for X-eye gender, proximity detector and heat mapping.

Constructed using 14 GA. and 12 GA. high impact steel which will insure longevity and years of use. This self-order kiosk can be painted any color you desire and can also include printed decals and full printed wraps.
