

# INTERACTIVE FRONT-FACING TEACHING AT YOUR FINGERTIPS

## ViewSonic Touch Displays for Education

A great front-of-classroom complement to any projector or interactive display, the **ViewSonic® TD2455 touch display** transforms podiums and lecterns into interactive teaching hubs. For engaging, front-facing teaching, simply connect the TD2455 to a ViewSonic projector or ViewBoard® interactive display. Educators can then control and manipulate content on the TD2455 touchscreen, while students can simultaneously view that same content on the larger front-of-classroom display. **Performance never looked this good.**

- **Intuitive Touch:** An advanced in-cell touchscreen provides a smooth and responsive experience with every tap, pinch, and swipe, while also delivering awesome front-of-screen performance and incredible images.
- **Front-Facing Teaching:** With advanced DisplayPort connectivity, these touch displays easily connect to any ViewSonic projector or ViewBoard display for easy content sharing and engaging, front-facing teaching.
- **Single-Cable Solutions:** USB 3.1 Type-C connectivity provides 60W charging power, video, and audio over a single cable.
- **Advanced Ergonomics:** Impressive 60-degree tilt functionality allows the display to lay almost flat, giving users a wide range of adjustability for a more comfortable touchscreen experience.
- **Wider Views:** This 24" Full HD display features an anti-glare screen and a three-sided ultra-thin bezel design that lets you see more and do more with expansive screen real estate.
