End.

13

Musical notation for the fourth groove, starting at measure 13, featuring a hi-hat pattern.

This is not the full transcription of the song, just grooves and options.

The song sounds as if it has a drum machine playing the rim clicks and/or electronic claps during the actual drumset part, it is possible to play both at the same time, as shown.

On repeats the 2nd groove measure sometimes has a snare in place of the floor tom on count a of 4. and at the end of a phrase has 4 sixteenth notes on count 4.

The hi hat diddle is only in a few measures as listed above, also optional. Played much easier without click or clap.

If you want to spice it up a little, add some more toms in the groove and even switch some tom notes.
