

(3) RESTORE & RESTART

Focuses on restoring children that have been recovered from being missing or sexually exploited. This is accomplished through connecting with the child to break down the barriers of communication, intervention of reconnecting to the wrong environment, ending the cycle of occurrence, and partnerships with appropriate social services to help the child move one step closer to being whole.

**AWARENESS • EDUCATION • PREVENTION
• SEARCH • RESCUE**

CORE PROJECTS

(1) PREVENT & PROTECT

Focuses on preventing child endangerment through education, awareness, prevention training, and protective resources. One of our most effective and recognized services is providing our Free Child Safety ID Kits and safety education at public events, police department sponsored events, safety education workshops, community unity meetings, churches, and schools. At these events, we interface with both children, as well as their guardians. This provides the opportunity to interact directly and personally.

By offering this service free of charge to the families, we ensure that no family is left behind. Our goal is for the families of every child to have this critical Child ID information accurately and readily available at the moment a child goes missing. By teaching and promoting the facts and the dangers that lead to missing and exploited children, we strive to keep kids safe by educating them to know the safe response in situations, by providing them the tools that could save their future lives. The overall bottom-line goal of the "Prevent & Protect" project is just that:

to prevent endangerment and protect the kids.

(2) SEARCH & RESCUE

Focuses on finding, locating, and/or rescuing missing and sexually exploited children. We plan on accomplishing this goal through the distribution of flyers throughout the community, billboard placement, public service announcements (PSAs), & investigative partnerships.

WHO WE ARE

Saving Lost Kids™ is a caring project of the Brian Callies Foundation™, a Memphis-based, national 501(c)(3) non-profit charitable organization. Our mission is "Saving Lost Kids", meaning we focus on addressing the issues around missing, exploited, and sex-trafficking of children. We have happily served the children and families of Memphis and Shelby County, but are quickly expanding to serve the entire Mid-South region, until we eventually reach a national impact.

Our primary project is currently Project "Prevent & Protect". It focuses on preventing children from ever becoming a victim through education, awareness, and protection resources for both children and their families. One of our most successful tools is our "Free Child Safety ID" initiative. Our goal is to ensure that the families of every child possess a current Safety ID for each child, as well as, the accompanying education necessary to keep

their children safe. Additionally, we are considered one of Shelby County's leading child safety advocates, having served at hundreds of public events, provided thousands of Safety IDs, supported over 40,000 families members, and distributed over 10,000 free gunlocks and dental kits.

Our goal is to educate, raise awareness, and enhance prevention measures of issues surrounding missing, exploitation of, and the sex-trafficking of children, such as to drastically reduce the number of current and future victims.
