Its unparalleled curriculum focuses on critical areas in law enforcement management. Students who successfully complete SPSC are better prepared to:

- Think globally rather than remain task-oriented;
- Deliver services effectively and efficiently;
- Analyze the environment;
- Mitigate legal exposure; and,
- Develop systems of accountability.

Adjunct instructors and guest lecturers, all experts in their fields, enhance the learning experience with an innovative mix of academic principles and practical applications, blending instruction in concepts and strategies with the how-to of implementing those lessons and leading in situations where the problems are real and agency outcomes are critical.

Course activities encourage class members to learn from each other's experiences, build relationships, and develop networks that will last long after the course has ended.
