COMMENTED	All attendees . New Idea & programmes are noted.
RESOLUTION 1	<p>Women bring a unique perspective to the table, and having more women members can ensure that the association is considering a wide range of viewpoints. This diversity of perspective can help the association make more well-rounded decisions that take into account the needs and interests of a diverse membership.It is a great initiative to bring together different members of the community to work towards a common goal of creating a community center for the benefit of everyone. Building a united community center can be a significant undertaking, and it will require careful planning, organization, and funding.</p>
RESOLUTION 2	Hall to be confirmed soon
RESOLUTION 3	<p>Community get-togethers can have more practical benefits. For example, they can be a great way to share information about local resources or services. They can also provide an opportunity for community members to voice their concerns or opinions about issues that affect them, and to work together to find solutions.Overall, community get-togethers are an important part of building strong, vibrant, and connected communities. By bringing people together to share experiences, have fun, and work towards common goals, these events can help create a sense of belonging and connectedness that is essential for individual and community well-being.</p>
REPORT & VISSION	
<p>The EBWA is planning to launch of fundraising campaign for a new youth centre in our community. The Association has been facing a number of challenges when it comes to providing young people with safe and supportive spaces to gather, learn, and grow. With help, we hope to change that.Our vision for the youth centre is to provide a hub of activity and support for young people in our community. We plan to offer a range of programs and services that address the needs of young people in our area, including job training, tutoring, mentoring, and recreational activities.</p>
