

## Discussion Questions

1. The term “denomination” is the one most often used to describe churches. Do some research/study on the word. What is a denomination? What does it mean when applied to a religion?

2. Considering the definition of a denomination, is the church of Christ a denomination? If not, what is the church of Christ?

3. We sometimes hear arguments that the Bible endorses denominationalism. One verse often used is John 15:1-8. Are the branches various (and competing) churches? How would we answer this?
