SPECIAL EDITION -- O-GRAM PUBLICATION SUSPENSION

OCTOBER 31, 2017

Your O-Gram editor's computer was hacked last Wednesday, October 25, 2017. The malicious hacking was stopped before too much damage was inflicted but my external hard drive backup was affected and no longer functions. The computer did require a computer reset. During the reset process many of my files disappeared and it is not possible for me to create a November 2017 edition on time. We will continue to seek a solution. We thank our Board of Directors members and other contributors for their input.

"Stu" Stewart, Editor
