## Road narrowing Chicane (Priorities)

On some roads there are features such as road humps, chicanes and narrowings which are intended to slow you down. When you approach these features reduce your speed. Allow cyclists and motorcyclists room to pass through them. entry.com

Always give way to oncoming road users if directed to do so by signs.

Prepare your car (change to 2<sup>nd</sup> gear) and be ready to stop if there is any oncoming traffic (cars, bikes or motorcycles).

Stop before give way line and wait until all oncoming traffic pass through.

When it is safe, check your right and centre mirrors, and make sure there is not

f Access the situation; make sure you can make it in a safe way. Consider Speed and distance of oncoming traffic.

Decide by checking your centre and right mirrors for overtaking vehicles on Over your side of the road .look for pedestrians may crossing and adjust your speed by changing your gear if you need to.

 $\mathsf{Act}$  steer smoothly to the right and come back to the left in a good time.do not exceed speed limit of the road and check your centre mirror before making progress. entry.com
