

Junction Turning RIGHT

Check your mirrors
Before making progress

Look

LADA Look for oncoming cars, Pedestrians, road you turning to and speed limit.

Access the situation, decide what to do:

STOP (at the *point of turn* WHERE?)

GO (Turn at the *point of turn*)

Avoid cutting corner

Early Looking leads to early Decision.

Speed

Gently slow down less than 15 mph and change your gear and gently clutch up to avoid coasting? be ready to STOP? Consider Slope of the road?
2nd gear for wide roads - 1st for narrow roads.

Position

Make room for on going traffic on your left if it is possible.
Position your car inside the hatched marked area in good time.

Signal

Indicate Right in a good time.

WHEN? Timing depends on the speed of the road you are traveling.

WHAT if you indicate Late or Early?

Mirrors

Check your centre and Right mirrors.

WHY & WHEN?

WHAT hazards you may see?
