NOTES: If possible, the following files are preferred: vector (ai, .eps, .svg) or a .pdf source file. If not, a high resolution .png, .jpg, .heic will usually work. If the logo being sent is a photo and not one of the first 4 file types listed above - please confirm it is at least 100 KB in size for simple logo designs. Most complex logos should be at least 250 KB to be considered high resolution. File sizes can be viewed on a PC by right clicking and selecting properties. Embroidery files such as .dst are not valid. A digital proof is provided via email in 24-72 hours from the order date. Production will not begin until customer approval of proof is received.
