

Veterinary Referral Request for Chiropractic Care

Your client listed below has requested that Connect Animal Chiropractic provides chiropractic care for their animal. Please fill out this form and email to connectanimalchiro@gmail.com.

Disclaimer: Minnesota state law requires licensed chiropractors to obtain a referral from an animal's primary veterinarian prior to providing chiropractic care. Dr. Brittany Freese is NOT a licensed veterinarian and therefore understands that chiropractic care is an adjunct to traditional veterinary care and she wishes to collaborate with you on the animal's care.
