

# Winter Color Pots in 5 Easy steps

## 1. Pot & Potting Soil

Select a pot of your choice and place a layer of *Gardener's Gold Potting Soil* on the bottom of the pot.

## 2. Plant the bulbs

Push bulbs gently into the potting soil with pointy end up. Daffodils, hyacinths, tulips and paperwhite narcissus work best.

## 3. Plant the pansies

Place pansies between each bulb.

## 4. Add more potting soil

Add enough of the *Gardener's Gold Potting Soil* to cover the bulbs and the root balls of the pansies.

## 5. Water and enjoy

Add *Oxygen Plus* to the water and water thoroughly. Thereafter, water when the soil is dry to the touch. Enjoy.
